

DECISIONS OF CONGRESS 2022

Note on motions

This document outlines the decisions taken by Congress 2022 and the allocation of motions and CEC documents to parts of the union for action. Updates on the actions taken on the decisions of Congress 2022 will be uploaded to the website.

Existing policy motions are carried by Congress without debate and they will be looked into on the same basis as other motions. Referred motions are passed to the CEC (and, where appropriate, on to other parts of the GMB) for further investigation. Motions marked with a 'C' are composite motions.

Motions that were withdrawn early in the run-up to Congress may not be recorded in these tables.

Two items of business could not be debated by Congress 2022 due to the cancellation of the final day following positive Covid-19 tests. These items of business (Motion 288, which had a CEC qualification, and the CEC Statement on Ukraine) were subsequently debated and adopted by the CEC Political, European and International Subcommittee in July 2022.
