AGENDA

ANNUAL CONGRESS 2013

PLYMOUTH PAVILIONS

CONGRESS – SUNDAY 2 JUNE - WEDNESDAY 5 JUNE

9.30 am - 12.30 pm, 2.00 pm - 5.30 pm

CONGRESS – THURSDAY 6 JUNE

9.30 am - 12.30 pm

1974 CONGRESS, BLACKPOOL

MOTION 257

PRE-CONGRESS DELEGATE MEETINGS

Congress agrees that in order to widen the area of debate, and to achieve a more democratic expression of Congress delegates, Pre-Congress meetings should determine their voting intentions, with regard to resolutions from within their own Region, and matters reflecting a point of principle. But should not determine an intractable attitude to resolutions from other Regions until the conclusion of the general debate.

GUIDELINES FOR CONGRESS BUSINESS

These guidelines provide a broad, but flexible, framework for dealing with Congress business and have been drawn up in accordance with the Rules of the Union. They are intended as guidelines for the President, Congress and the Standing Orders Committee itself.

1. CONGRESS

Congress is convened and delegates are elected subject to the provisions of the Union Rule Book. Congress shall conduct its business at the following times:

Congress – Sunday 2 June - Wednesday 5 June
9.30 am - 12.30 pm, 2.00 pm - 5.30 pm

Congress – Thursday 6 June
9.30 am - 12.30 pm

Changes in these times will be discussed between the President of Congress and the Standing Orders Committee.

2. STANDING ORDERS COMMITTEE

The Standing Orders Committee shall be appointed in accordance with Rule 9. The members of the Standing Orders Committee shall elect a chair from amongst their own number.

The Standing Orders Committee shall have power to recommend to Congress proposals on the conduct of Congress business as covered by these guidelines.

The Standing Orders Committee shall meet as and when may be necessary to arrange Congress business.

The Central Executive Council may appoint up to three Observers to advise Standing Orders Committee.

3. GENERAL MOTIONS AND RULE AMENDMENTS

Motions on general policy and to amend rules shall be placed on the agenda according to the provisions of the Rule Book.

It is the responsibility of the Standing Orders Committee at Congress to make recommendations to Congress for the handling of the agenda.

The Standing Orders Committee has three responsibilities in respect of Motions submitted to Congress:

(1) The Committee shall determine whether or not each Motion is "**in order**" for debate at Congress i.e.

- whether the Motion ought to be dealt with by a more appropriate body (for example a JIC or a Section or Delegate Conference);
- whether, at a Congress which is not a Rules Revision Congress, the Motion conflicts with a rule, or is an explicit rule amendment or would require a consequential rule amendment to give effect to its provisions;
- whether the Motion covers more than one subject;

- whether, after consultation with the delegation, the provisions of the Motion are still relevant and appropriate to the present situation (i.e. whether the Motion has been "overtaken by events");
- whether the wording of the Motion is incomprehensible;
- whether at a Rules Revision Congress, a rule amendment Motion would leave a rule deficient;
- whether the Motion conflicts with a previous Congress resolution that it does not expressly seek to overturn.

If a Motion comes within any of these categories, it shall be ruled "**out of order**" by the Standing Orders Committee, and the Committee shall recommend to Congress accordingly.

(2) The Committee shall make proposals to Regional delegations on the withdrawal of a Motion in favour of another Motion on the Congress agenda. In determining whether to recommend the withdrawal of a Motion, the Committee shall ensure that the principles and proposals incorporated in that Motion are fully covered by the Motion that will remain on the agenda.

A Regional delegation is entitled to reject the Committee's proposal to withdraw, and to allow its Motion to stand on the agenda.

If a Regional delegation agrees to the withdrawal of its Motion the Standing Orders Committee will, if it wishes, recommend the right to second the other Motion or the right to speak in support of it. The Standing Orders Committee will report the recommendation accordingly to Congress.

(3) The Standing Orders Committee shall assist Regional delegations in the drafting of composite resolutions and shall make proposals and recommendations accordingly.

In determining proposals on composite resolutions, the Committee shall bear in mind the following points:

- that the principles and proposals of the Motions concerned are covered in the composite resolution
- that the wording of the composite resolution reflects the meaning of the original Motions.

The first Report of the Committee shall, as far as possible, report on agreed composite Motions, and/or indicate those Motions which are being considered for compositing and fix the time and place at which Regional delegations are required to meet the SOC either to discuss the compositing of Motions, or any other matters relating to Motions standing in the name of a Regional delegation.

In the event of a delegation failing to respond to an invitation to meet the SOC this shall be reported to Congress with the recommendation that the Motion shall fall.

If in the opinion of the SOC a Regional delegation has unreasonably declined to composite a Motion, this shall be reported to Congress with any recommendations that the Chair of SOC deems appropriate.

If it is proposed to composite Motions on which the CEC has adopted different attitudes, the CEC Observers shall consult with the General Secretary. The Standing Orders Committee and the Delegations involved in the proposed compositing shall be informed of the CEC attitude prior to the proposed composite being finalised.

If the Regional delegation agrees to a composite resolution, agreement will then be sought between the delegations concerned on which shall move and second the resolution and, where appropriate, which Regional delegation shall have the right to speak in support of it. The Standing Orders Committee will report the recommendation accordingly to Congress.

Priority in debate will be given to those delegates who assist in achieving a composite.

4. EMERGENCY MOTIONS

Any Delegate wishing to submit an Emergency Motion shall in the first instance seek the agreement of his/her Regional delegation that the Motion is an Emergency Motion. It shall then be referred to the Standing Orders Committee, which shall decide whether the Motion is an Emergency Motion after taking account of the following points:

- whether the Motion involves a serious situation needing quick action
- whether the Motion relates to events that have occurred after the closing date for motions as prescribed in the Rule Book
- whether the Motion relates to a decision already taken by the Congress which is in session and would consequently amend or rescind the decision.

Emergency Motions can be composited.

5. WITHDRAWAL OF MOTIONS

If a Regional delegation wishes to withdraw a Motion in the name of a branch of the Region, or in the name of the Regional Committee, the Regional Secretary shall notify the Standing Orders Committee.

6. MATTERS OF URGENCY

Any delegate wishing to bring before Congress "a matter of urgency" not on the agenda shall in the first instance seek the agreement of his/her Regional delegation that the matter is one of urgency. It shall then be referred to the Standing Orders Committee, which shall recommend whether or not the matter is one of urgency, after taking account of the following points:

- whether the matter needs immediate decision and is a matter which is not (whether by Motion or otherwise) already on the agenda
- whether the matter could have been dealt with adequately in an ordinary Motion placed on the Congress agenda, or by an Emergency Motion.

The Standing Orders Committee shall inform the President of Congress and Congress of its recommendation. The President shall then put the Motion that the matter be taken as a matter of urgency, and it is then the responsibility of Congress to decide whether the matter be so brought forward.

7. CENTRAL EXECUTIVE COUNCIL

The Central Executive Council has the right within rule to submit Motions to Congress. The Central Executive Council will notify Regional delegations of these Motions prior to their pre-Congress meetings.

The Central Executive Council shall have the right to submit Motions as "a matter of emergency" to Congress. The Central Executive Council should notify the Standing Orders Committee of their intention to do so.

Subject to the provisions of Rule 8, the Central Executive Council members should only speak at Congress where they are representing Central Executive Council policy. Where a Central Executive Council member is asked by his/her Regional delegation to speak to the Regional delegation's policy, he/she shall only do so provided the delegation's policy is not in contravention with Central Executive Council policy.

8. DEBATING PROCEDURE

The Procedure for debating Congress Motions shall normally be at the discretion of the President who will indicate to Congress wherever appropriate, the procedure or procedures he/she intends to adopt.

In determining the procedure for debating Motions, the President shall have regard to the following points:

- no resolution of the Congress in session can be amended, rescinded or negated by a subsequent Motion, at that Congress;
- precedence in debates shall be given to a Motion of the Central Executive Council;
- rule amendments take precedence in debate over general Motions;
- personal attacks on colleagues should not take place.

The Standing Orders Committee shall advise the President what Motions will fall if another motion or a Special Report is carried.

9. TIME LIMITS FOR SPEAKERS

The times for speakers will be recommended by the Standing Orders Committee, taking account of the amount of business on the agenda.

It may be necessary, in order that the business of Congress is properly completed, that time for speakers be curtailed. The Standing Orders Committee shall recommend revised times for speakers to Congress. If, in the interests of saving Congress time, a Motion that the Central Executive Council is accepting without qualification is formally moved and seconded, there shall be no CEC speaker on the Motion.

10. VOTING

It shall be within the discretion of the President to determine the manner of voting, whether it be by a show of hands, a tellers vote or a card vote.

Only Delegates seated in the Congress Hall should vote. If, in exceptional circumstances, the President instructs that the doors to the Hall be closed, he/she should give prior warning to Delegates.

Show of Hands: The President shall call for those in favour to show, and shall then call for those against.

Teller Vote: The tellers elected for each Region shall, when the President of Congress instructs, count the hands raised In Favour. They will report this total to the General Member Auditors. The tellers then shall likewise count the hands raised Against, and similarly report the total to the General Member Auditors. The General Member Auditors shall report the result to the President.

Card Vote: A book of voting cards will be issued to each delegate. Each book will contain numbered cards marked "For", and cards marked "Against". The number on each card is to identify the number of the vote, and cannot be used to identify the individual voting. The appropriate voting card will be selected and used by the delegate to vote either "For" or "Against". The card must not be marked in any way, but placed in the ballot box provided by the teller.

When the President has decided that a card vote is necessary:

- (a) tellers will provide a ballot box for each regional delegation;
- (b) the President will announce the number of the card to be used – for example: 'Card Vote number 1';
- (c) delegates will choose the appropriate numbered card, marked either "For" or "Against" from their book of voting cards and place it into the ballot box provided;
- (d) once the President has announced 'Card Vote completed' tellers will take the ballot boxes to the General Member Auditors;
- (e) the General Member Auditors will count the votes, and notify the President of the result

President: The President of Congress shall have no vote. If there is a tied vote, then the motion shall fall.

11. VOTING FOR PRESIDENT AND VICE-PRESIDENT

The President and Vice-President of the Union shall be elected by Congress, in accordance with the provisions of Rule 12 and 13. Ballot papers bearing the names of the candidates will be issued at Congress.

12. LITERATURE

No literature or leaflets - other than official GMB literature - may be distributed inside the Congress Building without the prior permission of the Standing Orders Committee.

Literature, wherever distributed, which is intended to influence the voting intentions of delegates to Congress, should be brought to the attention of the Standing Orders Committee.

13. PREVIOUS CONGRESS DECISIONS

The following Motions, carried at previous Congresses, relate to the conduct of Congress.

1974 CONGRESS, BLACKPOOL, MOTION 257

PRE-CONGRESS DELEGATE MEETINGS

Congress agrees that in order to widen the area of debate, and to achieve a more democratic expression of Congress delegates, Pre-Congress meetings should determine their voting intentions, with regard to resolutions from within their own Region, and matters reflecting a point of principle. But should not determine an intractable attitude to resolutions from other Regions until the conclusion of the general debate.

PERIVALE BRANCH
(London Region)

1985 CONGRESS, BLACKPOOL, SPECIAL MOTION

CORE RULE 34

Congress re-affirms the powers of the Central Executive Council as provided for within Rule to revise Officials' salaries and matters related to conditions of service.

CENTRAL EXECUTIVE COUNCIL

1993 CONGRESS, PORTSMOUTH, MOTION 144

CONGRESS DOCUMENTS

Congress agrees that at future Congresses, all documents provided by the Central Executive Council and any Motions with several components, shall be voted on by paragraph or section, where that year's Congress decides by a majority vote to do so. Congress can thus reject parts of documents and Motions without rejecting all that is presented.

MELTON GENERAL BRANCH
(Midland & East Coast Region)

1999 CONGRESS, BLACKPOOL, MOTION 9

CONGRESS DEMOCRACY

Congress has previously resolved that Pre-Congress meetings should not determine an intractable attitude to resolutions from other regions until the conclusion of the general debate (1974 Congress).

Congress now demands the end of the practice of regions mandating delegates on any motions other than those of their own region, unless a major matter of principle is involved.

(London Region)

2003 CONGRESS, BLACKPOOL, MOTION 11

UNION DEMOCRACY

Congress calls for delegates to have democratic freedom.

It would be of assistance to have voting procedures explained at start of Congress.
At last Congress many delegates supported motions but voted against because they were instructed to oppose. New delegates were not aware they could have free votes.

STANDING ORDERS COMMITTEE REPORT NO.1

The business of Congress will be conducted in accordance with the Agenda, the Programme and the Guidelines for Congress Business, subject to changes at the President's discretion.

Times for Congress

The Standing Orders Committee wishes to draw the attention of Delegates to the starting times of the morning and afternoon sessions set out in the Congress programme as follows

Sunday 2 June – Wednesday 5 June

9.30 am – 12.30 pm, 2.00 pm – 5.30 pm

Thursday 6 June

9.30 am – 12.30 pm

The Standing Orders Committee recommends that the President be authorised to close each session when appropriate, without further reference to the Standing Orders Committee or to Congress.

Times for Speakers

The Standing Orders Committee recommends the following Time Limits for Speakers.

General Motions and Rule Amendments:

Movers up to	4 Minutes
Seconders up to	2 Minutes
Other Speakers up to	2 Minutes

Officers' Reports:

General Secretary up to	10 Minutes
Movers of Section Reports up to	5 Minutes
Questions up to	1 Minute

Officers' and Section Reports, and questions to them, should relate only to matters of general policy, and not to details of negotiations.

Special Reports and CEC Statements:

Mover up to	6 Minutes
Secunder up to	3 Minutes
Other Speakers up to	3 Minutes

It would help the business of Congress enormously if, wherever possible, motions could be formally seconded, and if replies to questions and debates were kept to a minimum.

The Standing Orders Committee draws Delegates' attention to the rostrum and asks speakers to be ready by the rostrum when it is their turn to speak. Chairs will be provided at the front of the hall for speakers awaiting their turn.

Questions on Balance Sheet and Auditors' Report

Questions on the Balance Sheet and Auditors' Report must be submitted in writing to the Congress office no later than 5.30 pm on Monday 3 June 2013.

Motions and Rule Amendments Out of Order

The Standing Orders Committee has ruled that the following Motions and Rule Amendments are Out of Order for the reasons specified:

1: National Equality Conference: Ability to Submit Motions to Congress London

This Motion requires a change to Rule 9.4 since it seeks to provide the National Equalities Conference with the ability to select and submit one motion to ordinary Congress.

34: Retired Life Members To Be A Full Financial Member Birmingham & West Midlands

This Motion requires changes to Rules 18 and 45 since it seeks to provide that Retired Life Members who have paid £25 retired membership should be eligible to stand for office. The Motion is also incomprehensible since it refers to rule 46.4 and in the GMB Rule Book 2012 Rule 46.4 deals with promotional contribution rates.

35: Retired Life Members, Eligibility For Office Within the GMB Southern

This Motion requires changes to Rules 18 and 45 since it seeks to alter the rules regarding the eligibility of Retired Life Members to hold office. The Motion is also incomprehensible since it refers to Rule 48a but there is no such rule in the GMB 2012 Rule Book.

36: GMB Branch Health Officers London

This Motion requires a change to Rule 35.3 since it seeks to establish the office of GMB Health Officer in branch structure.

54: Youth London

This Motion requires a change to Rule 45 since it seeks to provide for new subscription rates for different categories of young people.

55: GMB Young Members and Apprentices Members Rates Wales & South West

This Motion requires a change to Rule 45 since it seeks to provide for a new subscription rate for young apprentices.

56: Apprentice Recruitment Rates Midland & East Coast

This Motion requires a change to Rule 45 since it calls for a reduced rate for apprentices.

57: Apprentice Contribution Rate Midland & East Coast

This Motion requires a change to Rule 45 since it calls for the introduction of an apprentice contribution rate.

69: Engage With Our Young People Birmingham & West Midlands

This Motion requires a change to Rule 45 since it calls for the union to offer a student rate for GMB membership.

88: Pensions

Northern

This Motion ought to be dealt with by a more appropriate body i.e. the Public Services National Committee since it relates to a specific element of Public Sector Workers terms and conditions i.e. their pensions.

122: Apprentice Rates

Midland & East Coast

This Motion requires a change to Rule 45 since it calls for the introduction of apprentice rates for GMB membership.

159: Protecting Local Government Terms And Conditions

London

This Motion ought to be dealt with by a more appropriate body i.e. the National Joint Council for Local Government Services since it relates to a specific element of local government workers' terms and conditions i.e. their pay.

200: Fair Pay For A Days Work

Yorkshire & North Derbyshire

This Motion ought to be dealt with by a more appropriate body i.e. the Public Services National Committee since it relates to a specific element of care workers' terms and conditions i.e. their pay.

241: De-Affiliation From The Labour Party

Yorkshire & North Derbyshire

This Motion, headed "De-affiliation from the Labour Party" says that the union must debate whether the union stays affiliated to the Labour Party. This would require Rule Amendments to have been submitted to Rules 12.10 and 19.10.

RA327: Rule 17b Organisers

RA329: Rule 17f Procedure For Electing Organisers

Yorkshire & North Derbyshire

RA327 and RA329 should be read together since they seek to delete the requirement to elect Organisers under Rule 17b (RA327), and to delete the procedure for electing Organisers by deleting the whole of Rule 17f (RA329). RA327 on its own would leave the Rule Book deficient since it would leave the procedure for electing Organisers in the Rule Book. However, RA329 seeks to delete the whole of Rule 17f, and not merely amend those clauses which relate to the election of Organisers. This would leave the Rule Book deficient since the procedure in Rule 17f is also used for other Rule Book elections e.g. General Member Auditors.

RA357: Rule 57 Funeral Benefit

Birmingham & West Midlands

This Rule Amendment seeks to amend words in connection with Funeral Benefit which were removed from the Rule Book by Congress 2012. It is deficient in that it seeks to delete words that are no longer in the GMB Rule Book.

Motions in line with Existing Policy

In accordance with recommendation 14 of the "Framework for the Future of GMB: Moving Forward" CEC Special Report endorsed by Congress 2007, the CEC has advised the Standing Orders Committee about those Motions which are in line with existing GMB policy. The CEC Report on "Existing Policy Motions" printed in the Final Agenda explains when and how existing policy was established in each case. The Standing Orders Committee has accepted the advice and is therefore recommending to Congress that the following Motions be put to Congress for endorsement without the need for debate:

- Motion 101: Government Attacks On Employment Rights
- Motion 120: Remove The Age Rates For The National Minimum Wage
- Motion 121: Minimum Wage
- Motion 131: Agency Workers' Equal Right
- Motion 158: Strategy For Coal
- Motion 165: Pay Freeze In Public Sector
- Motion 171: An End To Outsourcing
- Motion 178: Academies
- Motion 205: Closure And Privatisation Of MOD Bases
- Motion 209: Government To Crack Down On Tax Fraud
- Motion 213: Reduction Of VAT
- Motion 214: Finance – VAT
- Motion 257: Loan Sharks
- Motion 269: Legal Aid Cuts

Composite Motions

Agreement has been reached on the Composite Motions printed in the Final Agenda.

Election of President and Vice-President

In the event of a contested election of President and/or Vice-President of the Union, the Committee recommends the following procedure:

The General Secretary should announce the names of the candidates to Congress at the close of business on the afternoon of Sunday 2 June 2013.

Ballot papers will be prepared under the supervision of the Standing Orders Committee. At 10.00 am on the morning of Monday 3 June 2013, the General Member Auditors will deliver to each Regional Secretary the envelope containing the ballot papers for lay delegates of the Region. Central Executive Council members and other non-voting delegates are not entitled to vote in this election. The Regional Secretary will issue a ballot paper to each delegate entitled to vote.

If any delegate arrives late, his/her Regional Secretary should accompany the delegate to the General Member Auditors and request a ballot paper.

Each delegate is entitled to place their voting paper in one of the ballot boxes at the front of the hall. Tellers are *not* responsible for collecting ballot papers in this election.

Voting will close at 2.30 p.m. on Monday 3 June 2013, at which time the General Member Auditors will take the ballot boxes and count the votes. They should report the result to Congress before the end of the afternoon Session on the same day.

Emergency Motions

The SOC has ruled that the following Emergency Motion is in order:

EM1 Potential Nuclear Holocaust in Korea
Yorkshire & North Derbyshire Region

Mobile Phones

If mobile phones are brought into the Congress Hall, they must be switched off at all times when Congress is in session.

Film Cameras

The Standing Orders Committee has given permission for film cameras to be used in the Conference Hall. The Committee has been assured that filming will be carried out with no interference to Delegates.

DVDs, Videos etc

Requests to play DVDs, videos, etc should be submitted to the Standing Orders Committee for approval prior to be shown at Congress.

Bucket Collections

Requests for permission to hold Bucket Collections should be submitted in writing to the Standing Orders Committee by 11.00 am on the first Sunday morning session of Congress. (It is a term of Exhibitors' agreements with GMB that they will not request permission to hold a collection.) Requests must be submitted in writing by the Regional Secretary, and must have the support of the Regional Delegation. Priority will be given to requests for bucket collections which concern trade union or related issues. Where permission is granted, those requesting the collection must organise, count and bank the collection, if necessary liaising with the Congress office for support from Congress Stewards. They must then notify the Congress office of the amount collected, so that the President can inform Congress.

In the normal course of events the total number of bucket collections to be authorised by the SOC will be limited to a maximum of 3, except in exceptional and unforeseen circumstances at the discretion of the President. The SOC will limit consideration of requests for bucket collections to a maximum of 1 per Region, except in exceptional and unforeseen circumstances.

By agreement reached at Congress 96, Regional Committees will each contribute a further sum to the national Congress gift, therefore, permission will not be granted for a collection to augment the Congress gift.

- X 1. **NATIONAL EQUALITY CONFERENCE: ABILITY TO SUBMIT MOTIONS TO CONGRESS**
Congress recognises the important work undertaken by the National Equalities Forum (NEF) and the development of the National Equalities Conference (NEC) in developing the equality through inclusion agenda.

Congress recognises that the NEC can only be advisory and not policy making. This Congress therefore believes that the NEC should have the ability to agree at least one motion for National Congress, similar to the system operated by the TUC Equality Conferences.

This Congress therefore agrees to amend Rule 9, clause 4 to add after the first sentence:

“In addition the National Equalities Conference can select one motion for submission to ordinary Congress. That motion will stand in the name of the National Equalities Conference and be moved by the region that originally submitted the motion to the NEC”.

2. **INVITES TO CONGRESS AND QUESTIONS**

This motion calls for more clarity and democracy, when it comes to inviting guests and asking questions at Congress. In past years a number of controversial figures have been invited to Congress. There are many positive and negative views to inviting these people which this motion isn't concerned with these. However, this motion does feel that the decisions on who to invite should be member led. Also, in my previous years of attending there has been no clarity around the questions that are asked to guest speakers. There needs to be a more open, transparent and democratic process. This motion is calling for an open procedure put in place so that everyone has the chance to put questions forward and is aware how to.

3. **GUESTS AT CONGRESS**

This Conference recognises that many members were angry with the decision to invite members of the Coalition to our last two Congresses and hear them lecture us on the need to make cuts and also on our right to take industrial action.

This is not a matter of 'free speech' - Congress believes that these persons have unparalleled access to mainstream media to spread their narrative, and so do not need another forum in which to do so and which to attack trade union members.

Congress believes that this is *our* space – an important coming together of members to discuss the democratic business of our union, and persons who wish to attack our institutions, our members, and our values, have no right to be a part of this and are not welcome here.

However, we recognise that for whatever reason, invitations to these politicians may be accepted. Therefore, we instruct the CEC to allow congress delegates the right to protest their appearance without being silenced, and we also instruct the CEC to ensure that a fair system of asking questions is allowed, rather than the pre-prepared questions from chosen delegates as we have seen. We propose that each delegate who wishes to ask a question is assigned a number, and the number drawn from a 'hat'. This ensures a fair process rather than a stage managed set piece, and will allow other views to be democratically expressed.

4. DECLINE IN NUMBER OF DELEGATE NOMINATIONS TO CONGRESS

Congress is concerned about the decline in the number of branches making nominations to Congress. Whilst Rule 8.7 has helped improve the participation of under-represented groups by allowing an additional 10% to be added to the regional delegation, it is clear that not all branches are making nominations.

Further, in some regions, delegate elections do not need to take place as places are uncontested and even unfilled in some cases. This does not bode well for our union's democracy and we need to ensure we do everything we can to ensure that the union's policy is agreed by a diverse, cross-section of its members.

Congress therefore instructs the union to research why branches are not putting forward nominations and whether branches have suggestions as to how participation can be improved. A full report on the findings and recommendations on how to improve participation in future years should be presented to Congress 2014.

5. WOMENS' UNDER REPRESENTATION

This Congress is proud that almost half of GMB Union members are women. This GMB Congress is distressed that so few GMB Union Congress delegates are women.

C1 6. PROMOTING EQUAL REPRESENTATION OF WOMEN WITHIN GMB

This Congress recognises the under-representation of women's participation in the GMB Lay and full time structures. Congress notes that membership of the union is roughly 50/50 between men and women. Congress believes that the elected Lay structure as well as the Full Time Regional and National Officers and staff should reflect the membership of the union in gender balance.

This Congress welcomes the commissioning of a report by the CEC into the involvement of women in the GMB and instructs the CEC to ensure that any report is circulated to regions and branches.

Congress requests CEC looks at under representation of women at the level of Branch, Regional, National as well as Congress delegations and make recommendations on how we can rectify issues of under representation. The CEC should consult the National Equality Forum and Regional Equality Forums on the outcomes of the report and bring final recommendation to Congress with any rule amendments that may be required.

C1 8. LEGACY OF SEXISM WITHIN THE UNIONS

This Congress notes that Unions have always been associated with working class Northern Men. More female officers are required to help and to alter this perception. The image needs to be updated and the unions as a whole need to be more representative of those that they represent.

We therefore ask Congress that GMB appoint more female full-time officers.

13. BRANCH WEBSITES

Congress agrees to develop a means to make it easier for all branches to have an easily maintainable online presence with their own websites.

In this modern age, the GMB is at risk of falling behind other Trade Unions if it does not keep pace with Information Communication Technology. People now have smart phones and TVs so even those with no knowledge of computers can access the internet at home or on the move. With employers across all sectors embracing social media and websites, the GMB needs to do more to communicate on a regular basis with members through a variety of channels so that members can choose how we keep them up to date and when.

For a comparatively minimal set up cost, branches will be able to keep members up to date with campaigns, news and information on what Organisers are doing to protect their members.

I appreciate that not everyone has a good knowledge of IT which is why the GMB needs to support branches by developing a template site for all branches which is as easy to update as typing a letter or sending an email. With a little training this will enable the most IT phobic Branch Officers to be able to update the website easily on a weekly or daily basis.

Safeguards could easily be built in where approval from Regional Organisers or a Policy Advisor at a regional level could ensure content adheres to GMB policy.

The GMB needs to move forward and embrace modern technology to raise our profile and improve recruitment and retention of members.

20. SUPPORT DOMESTIC SERVICE WORKERS

This Congress calls on the GMB to mount a campaign to both expose the abuse of domestic workers and to recruit them to our union to give them a strong united voice.

One hundred years ago, the largest employment sector was Domestic Service, pampering and serving the needs of the great and the good (i.e. the rich and powerful).

In the 21st Century, although the terminology and job titles may have changed, Domestic Service still exists. Just as in the past, exploitation of these workers is rife, with pay often below the minimum wage, workers with little or no recognised rights and suffering abuse. Low paid; usually women and mainly foreign workers are used as skivvies.

By its very nature, this dark secret of the upper echelons of society is well hidden. It's difficult to identify and to unionise such workers. However, the GMB has a history of organising those considered impossible to organise. The GMB should rise to this challenge.

X 35. RETIRED LIFE MEMBERS, ELIGIBILITY FOR OFFICE WITHIN THE GMB

Congress notes when a member retires from paid employment they no longer get the benefit or call on the services the GMB provides in the workplace and therefore are a limited drain on our resources.

Congress fully appreciates the role that retired lay members can and do play in the running of the GMB. We can ill afford to lose their wealth of experience, expertise, commitment, enthusiasm and knowledge, which can be fully utilise to ensure the smooth running of our Union. Congress agrees these lay members who give up their time and effort to hold office, will not be financially penalised for giving a valuable service to our Union, as compared with a fully financial member. We have a hard enough job persuading members to hold office, without placing a financial burden on them for doing so. Congress therefore instructs the CEC to bring forward to the 2014 Congress, proposals to alter the rules governing the eligibility of Retired Life Members (as defined under rule 48a), to allow these members to hold office within the GMB.

X 36. GMB BRANCH HEALTH OFFICERS

This Congress recognises the importance and need for the introduction and development of a GMB Branch Health Officer into our branch structure.

In these times of austerity more often than not, our members do not look after their health quite as well as they should. Longer and irregular working patterns increase the risk of unhealthy eating, reduction in exercising, and the development of mental health and physical health conditions.

The Branch Health Officer would be trained in basic healthy living and well-being skills. The Health Officer would be responsible for organising healthy living and better well-being campaigns in the workplace. These could include regular blood-pressure measurements, healthy eating advice and life style advice.

The introduction of Health Officers into our branch structures could improve, extend and even save the lives of GMB members.

52. CONTRIBUTION RATE FOR UNEMPLOYED MEMBERS

This Congress notes the increasing need to win over public support to be successful in our campaigns in defence of jobs, pensions and services. We also note the need to work with the wider community on issues, resulting from welfare reform, which are affecting our members.

Our branch prides itself on the work it carries out in our area winning the Regional Branch Community Campaign of the Year Award two years running.

We note the innovative work being carried out by other trade unions in relation to community membership. The branch recognises the prohibitive rate of contributions for those out of work.

We, therefore, instruct the GMB to investigate community membership and organisation for the benefit of the union, its campaigns and our communities.

CHESTERFIELD NO. 1 BRANCH

X 54. YOUTH

Congress agrees to put in place new subscription rates and a recruitment campaign for young people. This would include:

- The unemployed rate for those on unpaid "work experience"
- A special rate for those on zero hours contracts or "self-employed" contracts with irregular work; taking into account that a regular weekly/monthly rate will not be appropriate and flexible payments more acceptable – perhaps a percentage of earnings in any 6 month period.
- Negotiation with GMB organized companies (e.g. ASDA) so that young people forced into "work experience" are enabled to attend training sessions about the union. Also that existing members should suffer no detriment as a result of the "employment" of these free workers (e.g. loss of overtime and jobs).
- Regions should undertake research to find out which employers are using unpaid claimants and then target these employers and recruit the workers.

This is because young people are being increasingly exploited and are increasingly unlikely to join unions, partly because of the cost.

X 55. GMB YOUNG MEMBERS AND APPRENTICES MEMBERS RATES

This Congress recognises that the engaging of young people into our membership is paramount to the Union's on-going goals of growing its membership. We ask the CEC, therefore, to give consideration to introducing a new rate specifically for young apprentice's posts that will enable GMB activists to target and recruit those young persons entering the employment market early in their careers.

RHONDDA CYNON TAFF BRANCH

X 56. APPRENTICE RECRUITMENT RATES

This Congress notes the wage of apprentices is very poor £2.65 per hour. Many apprenticeships are excellent value run to a high quality.

However, all too often young people find themselves on sub-standard schemes where employers don't invest in apprenticeships and simply employ the young as a cheap source of labour.

These young apprentices need the help of unions so we ask that unions have a reduced rate for them so they are safe with the union backing.

ALFRETON NO. 1 BRANCH
Midland & East Coast Region

X 57. APPRENTICE CONTRIBUTION RATE

This Congress calls for the introduction of an apprentice contribution rate which would take into account that many apprentices spend the first two years on low wages, in particular when they are between ages 16 and 18.

The current minimum wage for those under 18 is £3.68, but those employed as apprentices, £2.65.

We feel that an incremental increase in contributions would help to encourage more young people to join our union whilst they are on the bottom rung of the earnings ladder, as part of an apprentice contribution rate.

59. TAX FREE TRADE UNION CONTRIBUTIONS

This Congress calls for the Union to campaign for union membership fees to be tax deductible.

This is an equality issue as professionals can have their subscription fees deducted against their tax. Union membership fees are exclusively for the purpose of work and ensure that the workplace is a safer place to work and better paid than non-unionised workplaces.

We submit that to restrict such tax allowances to the professional classes is discriminatory against working class employees and workers. We ask the Union to vigorously campaign and use its influence in the Labour Party to make this happen after the next General Election when we, hopefully, get a Labour Government.

60. FUNDING OF THE EQUALITY AGENDA

Congress, GMB is setting in place a number of equality initiatives and is to be congratulated for this.

The General Secretary congratulated London Region on its creativity in the equality field, and expressed his support.

Those members who are included in these initiatives (women, black and ethnic minority people, young people, LGBT groups, people with disability, migrant workers and older members) are likely to be lower paid and have greater transport problems.

Therefore the union agrees that regions will fund members' expenses for attending these meetings and also fund the cost of running the meetings (venue, crèche, refreshments etc). If GMB is serious about empowering and enfranchising such groups, then they must be properly and fully funded by the Union regionally and not by branches, which have less and less disposable money. This is the case with the other major Unions.

64. GMB WORK CLUBS

This Congress calls upon the GMB to actively work with partners and our members who are in need due to the recession, to develop support services and GMB "work clubs" to assist them back into employment.

We are concerned that many contractors are engaged in tick box exercises without addressing the real needs of the member. It has been revealed that some of the private agencies running the work programme are 'parking' disabled job seekers and offering a very poor service despite substantial funding to help people back in work funded for by the tax payers. The Union can be at the forefront of demonstrating our commitment to members and the wider community in and out of work through the wider partnerships and services identified in establishing GMB "work clubs".

We ask Branches and Regions to work with Union Learning Projects and other partners to ensure that a range of good quality services and support mechanisms are established in their areas, where possible supported and run by the Union members themselves.

68. OUTLAWING BULLYING

Congress agrees to campaign to outlaw bullying from the workplace in all forms, permanently.

Current legislation does little to protect workers from bullying and intimidation in the workplace. While there are some limited safeguards for those with protected characteristics which include, race, religion or belief, gender, gender reassignment, sexuality, disability and age, a bully can harass individuals or a group of people without being brought to account, so long as they treat them all the same. This means an employer can intimidate all of their staff and get away with it.

The current legislation also does very little to protect those with the identified characteristics because unless you can prove the bullying is linked to one of them, there is no recourse in law.

Congress further agrees to commit to campaigning to change the law so that bullying in work will not be tolerated whether or not it is linked to the age, sex, race, ability, sexuality, gender reassignment, religion, belief, look, feel or any other characteristic of an individual.

To facilitate this activity and to encourage ownership with our future membership, it would be encouraging for GMB to offer a student rate to any young person wishing to join up to the principle of Unity before they enter the world of full time work.

70. HOMOPHOBIC BULLYING 'A DAILY NIGHTMARE' FOR OVER HALF OF BRITAIN'S SCHOOL PUPILS

This Congress notes that pioneering research reveals serious concerns about homophobic language and that nearly a quarter of gay young people attempt suicide.

New research carried out by the University of Cambridge for Stonewall's [School Report 2012](#) has found that 55% of lesbian, gay and bisexual pupils in Britain's secondary schools experience homophobic bullying. The research, based on a national survey of 1,614 young people, also found that nearly a quarter (23%) of gay young people have attempted to take their own life and more than half (56%) deliberately harm themselves.

The School Report 2012 reveals that 99% of gay young people hear homophobic language – like ‘that’s so gay’ and ‘you’re so gay’. However, a quarter of gay young people, rising to over a third in faith schools, report that teachers never challenge homophobic language. In schools where teaching staff never challenge homophobic remarks, the rate of homophobic bullying is far higher than in schools where such language is always challenged (71% compared to 43%).

Stonewall Chief Executive Ben Summerskill said: ‘It’s unacceptable that over half of gay young people face a daily nightmare of homophobic bullying and deeply worrying that many schools and teachers still fail to challenge it effectively. Thankfully Stonewall’s years of work with thousands of schools and local authorities has reduced the overall level of homophobic bullying significantly. But we won’t rest until every single gay young person in this country can walk through their school gates every morning without fear of being bullied just because of the way they were born.’

Schools Minister, Nick Gibb, said: ‘Homophobic bullying, of any kind and of any child, is completely unacceptable. No child should have to suffer fear, victimisation or disruption as a result of bullying, either on or off school premises. Tackling poor behaviour and bullying are top priorities for the coalition government. Working with Stonewall and other groups, we are supporting schools to take a zero tolerance approach to all forms of bullying. We are also clear that homophobic language should become as unacceptable as racial slurs.’

Shadow Education Secretary, Stephen Twigg, speaking at Stonewall’s Education for All Conference in London today, paid tribute to Stonewall for making a ‘vital contribution’ to discussions about homophobic bullying. ‘Every school and college must be a safe environment for everyone learning and working there,’ he said. ‘Stonewall’s School Report sets out challenges for schools, the Department for Education and Ofsted. It also makes recommendations for local authorities and academy chains – it’s vital that these are adopted.’

Today’s report updates Stonewall’s School Report 2007, which found that nearly two thirds of young people were being homophobically bullied. Homophobic language remains as prevalent today as it was in 2007, although twice as many young people today report their schools say homophobic bullying is wrong (50%, up from 25% in 2007).

We therefore ask Congress to support this motion to have LGBT awareness added to the School Curriculum.

71. DOMESTIC VIOLENCE (DV)

Congress, since it is estimated that one in four women report being victims of domestic violence to police, it is reasonable to assume that the incidence of domestic violence is much higher, as many will not report it to anyone. Many of our members will suffer from domestic violence (including one in six men) and suffer in the workplace because of it, as they will have poor sick records and be isolated and depressed. Up till now GMB has not offered any assistance or campaign to support these members. Congress resolves therefore to:

- Put a page with advice and information on the GMB website
- Include a session on Domestic Violence Awareness in all workplace organizer courses
- Advise and assist branches to elect DV Officers who will be able to assist members and workplace organisers on this issue.
- Include policies on supporting DV sufferers in all agreements with employers
- Produce and publish an information leaflet to be circulated widely.

This is an issue affecting many members in all our workplaces and GMB should make sure that they do not need to suffer in silence and isolation any longer.

LOWESTOFT BRANCH

72. SEXUAL VIOLENCE

Congress, the on-going revelations regarding Jimmy Savile's paedophilia are likely to provide a watershed moment in terms of the way British Society views child sex abuse and violence against women more generally. For instance, just like with the Rochdale "grooming" victims, most of Savile's victims did not fit the assumption of what a real victim should be like – and they weren't believed. Many victims of sexual violence who do tell what's happened to them are not believed and hopefully the women – and men – coming forward will challenge the sexist stereotypes. But in another way, Savile – and "grooming" gangs – are atypical. We know that most of all child sex abuse and violence against women is perpetrated by someone they know, either within their family or wider social circle.

Congress instructs the CEC to:

- 1) Review to which women's groups it is affiliated.
- 2) If none of these groups are actively working to challenge the underlying assumptions around sexual violence against women and children then affiliate to at least one group which prioritises this work.

75. SAME SEX PARENTING

This Congress notes that, these days for a same sex couple to go through the process of starting or extending a family there are too many cost implications. Same sex families are the only families that can say 100% that their child was planned and not created through any mistake or misdemeanours.

We therefore ask Congress to support this motion that same sex couples should have the same rights as heterosexual couples when planning a family.

76. HARASSMENT - EQUALITY ACT SECTION 40

This Congress is concerned about the Coalition Government's repeal of the rules outlawing third party harassment which in the 2010 Equality Act under Section 40 enabled an employee to claim against an employer where they have been harassed by a third party such as a customer of the employer.

This is a retrograde step in repealing Section 40 which was a protection to workers particularly in the catering/hospitality and care sectors who are particularly vulnerable to this change in the law and we call on the CEC to mount a campaign to get this particular section of the Act re-instated. An Act that was hard fought for and is now being dismantled by this present government.

77. DISCRIMINATION – EQUALITY ACT SECTION 138

This Congress condemns the removal of the right of workers who believe they have suffered discrimination to use statute-backed equality questionnaires. Under the 2010 Equality Act Section 138 employees have the power to ask questions of an employer about any unlawful discrimination that they have suffered and the employers were expected to answer within eight weeks.

Once again this Government is ignoring its own consultation and intends to scrap Section 138 and this is yet another attack on the hard won Equality Act and we call on the Labour Party to condemn the attacks on this Act.

79. DISABILITY ATTACK

This Congress believes that people with disabilities in this country are facing unrestrained attacks from those with authority and control. We resolve to campaign and work in alliance with other local and national groups - DEPAC and UKUncut among others - against the attacks on people with disabilities, particularly attacks on employment, benefits and other support services. Of particular recent concern have been the attacks on Remploy employees and the cuts to Disability Living Allowance.

80. LEGISLATIVE CHANGES TO MATERNITY LEAVE

Congress is concerned at this Government's continued cutbacks and attacks on workers' rights which are primarily impacting upon women. In particular the proposals originally contained in the Modern Workplaces consultation to reduce maternity leave to 18 weeks will be detrimental to both the mother's and child's health and well-being. In addition, there are proposals to make changes to maternity pay and indications that employment rights for women on maternity leave will also be reduced.

Whilst Congress supports the notion and aim of shared parenting, this will not be achieved by reducing rights to maternity leave. In addition, based on international evidence, it is unlikely that proposals would improve the take-up of leave by fathers/partners.

Congress therefore calls upon the union to actively campaign to protect women's pregnancy and maternity rights and in addition to support campaigns by the TUC, Maternity Action, Working Families and others. Such campaigning should encompass:

- Protection for 26 weeks maternity leave as a minimum;
- Defending enhanced occupational maternity schemes;
- Tackling pregnancy discrimination in the workplace;
- Alternative proposals for paternity/parental leave which promote equality;
- Enhancing, not reducing, family income during maternity;
- Paternity/partner and parental leave.

This Congress condemns the amendment on health and safety legislation slipped in to the Enterprise and Regulatory Reform Bill which could turn the clock back more than 100 years and represents a fundamental shift in attitudes to workers' safety. This Government introduced this amendment at the last minute deciding it was unfair that employers should be forced to pay compensation to employees injured or made ill by their work.

Once again this Government is attacking workers in favour of employers and we call on the CEC to mount a campaign to stop this iniquitous attack on the health and safety of our members taking us back decades and look to the Labour Party to lend their support to this.

This Congress calls on the Coalition Government to do much more by way of stimulating regeneration than it is currently doing. It is a travesty that Local Enterprise Partnerships (LEPs) are operating in a lot of areas in isolation within relatively parochial boundaries. Much more needs to be done by Central Government to enable better use of derelict land such as along the banks of the rivers running through the towns and cities of former industrial heartlands. Congress believes that areas that were once employers of thousands of workers in manufacturing, could be readily used for investment in green technological industries such as wind farm and other renewable technology. Congress calls on central and local government to work in tandem with the business community so that employment and regeneration opportunities are invested in at a time when UK PLC desperately needs it.

87. BUSINESS SOLVENCY V ENVIRONMENT

Congress supports the UK Ferry Industry and the vital services it provides in moving people and goods to and from Europe.

Congress further has a fundamental support for protection of the environment.

Congress recognizes that there is currently friction between the two policies as the cost of making environmental improvement, is massively increasing the cost burden to shipping companies operating in the waters around the UK. Low sulphur fuel and the continuous policy of removing other chemicals from fuels is increasing costs to a unsustainable level which will bankrupt many companies.

The business pressures in an industry suffering severe difficulty in recession Europe are taking many companies to the edge of insolvency and the introduction of low sulphur in 2015 will cause the end for many. In P&O Ferries where GMB has membership, the anticipated increase in fuel cost is in the order of 50/60%.

Congress urges GMB officials in conjunction with our other sister unions in the UK and Europe, to lobby for a delay in the introduction of low sulphur. GMB must join the campaign to support the shipping companies until better economic times and after a longer development time to reduce the increase in costs created by environmentally cleaner fuel.

X 88. PENSIONS

This Congress is appalled that the Coalition Government is introducing pension changes that will erode the value of occupational pensions for many workers. Following a pattern of behaviour since the Coalition Government came to power in 2010, middle and lower incomes have the most to lose.

Congress calls for these changes to be put on hold and urges the Labour Party to say that it will repeal these changes as part of its policy programme for the 2015 General Election.

89. PENSIONS

This Congress believes the Government's proposals on Pensions will ensure that many low paid workers in occupational pension schemes will pay more, work longer for less return. Congress believes that as such the incentive to stay in an occupational scheme will dramatically reduce over time. Congress believes that apart from increasing the burden on the State in future years, this is a scandalous position for the Coalition Government to take.

It shows their utter contempt for the masses. Congress calls on the Labour Party in Opposition to stipulate their position on the future of pensions in the run up to the next General Election and for this to be reported to the CEC.

C2 90. STATE PENSION SYSTEM

Congress notes that the Con-Dem Government has introduced a White Paper and Draft Bill to change the state pension system. Congress further notes that the Government's own information shows:

- That there are some winners – but a majority of people will lose out.
- It is discriminatory
- That the Treasury will gain £6bn per annum
- That an additional National Insurance Tax Rise will seriously hit defined benefit pension schemes and their 7 million members.
- That faster and further rises to the state pension age are likely.

GMB has been at the forefront of highlighting the truth about this Con-Dem con-trick and this Conference resolves to redouble our efforts to show that this Government is no friend to pensioners or future pensioners.

Congress further agrees we should continue to argue for earnings related pensions.

C2 94. IDS PROPOSED FLAT RATE PENSIONS

Congress views with scepticism flat rate pension of £144 a week proposed by Iain Duncan-Smith, and agrees it is a CONservative trick.

Although it is claimed it could lead to a higher pension for women, it would be at the cost of higher contributions over a longer period. It would also result in many current contributors getting lower pensions than their contributions merit.

The £144 is substantially less than current pensions for many who contribute to both the basic pension and SERPS. There may also be substantial increases in contributions for Public Sector workers.

Iain Duncan-Smith has not suddenly become Florence Nightingale, the real purpose of this proposal is to save the Government money.

Congress agrees with the view of the National Pensioners Convention that this scheme is a trick and this motion calls on GMB to continue to campaign for an all round improvement to all state retirement pensions.

C3 95. BLACKLISTING

Congress recognises the work done by the GMB in its investigations on blacklisting of our members.

However, Congress notes the incompetence of the Information Commissioner's Office ICO, regarding their investigations and their lack of enforcement, which resembles a chocolate fireguard on organisations like Carillion.

Congress asks the CEC to contact the Home Office asking them who the ICO are set up to protect, and why they fail to advise members of the public that they have been subject to blacklisting.

2. That at least 200 GMB members were on the blacklist and in the region of 500 GMB members may have been blacklisted over decades.
3. The important and continuing campaign against blacklisting and for redress being pursued by those who were blacklisted.

This Congress believes:

4. The GMB continues to have an important role in the broader campaign against blacklisting.

This Congress resolves:

5. That the GMB should ask its sponsored local Councillors to take steps to ensure that those companies who utilised the blacklist are excluded from local government contracts.
6. That the GMB should ask its sponsored MPs to take steps to ensure that those companies who utilised the blacklist are excluded from central government contracts.

99. CARILLION

This congress notes the scandalous failure of care at the Surgicare centre in Hertfordshire, run by the services group Carillion.

- The deaths of three patients who had been admitted for routine treatment prompted an independent report before Christmas.
- The unit had already been investigated over potential failings in the cases of six patients who suffered irreversible sight loss after treatment.
- There have been 21 serious clinical and patient information incidents since the clinic opened in September 2011.
- The clinic also lost the records of 8,500 ophthalmology outpatients in 2012.
- The local MP Stephen McPartland has called for Carillion to lose its license to manage medical services.

Congress further notes that:

- Carillion has been involved in unlawful blacklisting.
- Carillion has been involved in systematic cover ups about a system of extortion run by supervisors at Swindon's Great Western Hospital, including the victimization of GMB members who acted as whistle-blowers.

Congress believes:

- Carillion's standards of corporate governance fall below those expected of a company involved with the NHS, or providing public services to local or national governments.
- Congress resolves to continue to publicise Carillion's failings and asks public authorities to review their procurement policies to insist that companies working in the public sector hold to higher ethical standards than Carillion has so far exhibited.

100. EMPLOYMENT RIGHTS

This Congress condemns the insidious attacks upon the rights of employees by the Government, as set out in Vince Cable's statement launching the "Ending of the Employment Relationship" document.

Congress recognises that this statement confirms that the Government has largely accepted the majority of the proposals from the Beecroft Report, despite wider opposition from groups including the EEF, Federation of Small Businesses and The Institute of Chartered Accountants.

These proposals are nothing less than a cynical attempt to both dispossess working people of key employment rights and weaken the influence of Trade Unions who represent them.

Any such opt outs would turn the clock back on workers' rights, promote unfairness, intimidation and exploitation in the workplace and further enrich wealthy employers and others at the expense of the rest of society.

The GMB will not accept further attacks on workers' rights in Britain and resolves to organise a nation-wide campaign to highlight the importance of EU legislative protections for our members, to prevent the Conservatives from putting their proposals into action by working to defeat them at the next General Election and to organise vigorous resistance to all attempts to remove or water down our members' rights at work.

110. REDUNDANCY CONSULTATION PERIOD TO BE HALVED TO 45 DAYS IN THE SECURITY SECTOR

Congress over the last 2 years Officers and Branch Secretaries have attended more redundancy consultation meetings with Security Officers in our Security industry due to Government cuts. We are accusing the Government of making it easier to sack people after a Minister announced that the period before large-scale redundancies can take place is to be cut from 90 to 45 days.

Reducing the consultation period gives unions less time to work with employers to find ways to save jobs. Removing redundancy rights from fixed-term contract staff would create more jobs and financial insecurity for temporary staff and reduce their chances of redeployment.

Congress, what we should not forget, the plans meant trade unions would no longer have the legal right to be consulted about widespread redundancies of staff who happen to be on fixed-term contracts- many with long years of service.

The GMB London Security branch calls on GMB that the need to consult unions has made an important contribution to that, and also given staff, many of whom will have had years of loyal service, time to think through their options.

113. TRIBUNAL POWERS

This Congress deplores the Coalition Government's intervention in the Tribunal system whereby Tribunals will lose the power to make statutory recommendations for failing employers. Under Section 124(3) of the Equality Act 2010 a Tribunal where a discrimination claim has been successfully brought could recommend an employer to take steps to address the problem that occurred. EP 120. REMOVE THE AGE RATES FOR THE NATIONAL MINIMUM WAGE

This Congress calls upon the GMB to spearhead a UK wide campaign urging the government to remove the age rates from the National Minimum Wage to enable young people to be afforded the same legal position with regard to minimum hourly rates as older workers.

This Congress believes that people at the age of 18 may be just as likely to be homeowners with children as those older than themselves. They should not be discriminated against and should be viewed by the government in the same light as those who are in the same situation but are of more advanced years.

It has been flawed since its inception as it sits outside age discrimination laws. The detractors argue that to pay young people the same as those over 21 would cause them unemployment. Those detractors used the same argument against the introduction of the National Minimum Wage for everyone prior to its introduction.

The GMB has a proud history of fighting against unfairness and discrimination and we call for a campaign to be initiated to right this wrong.

Congress believes that profits placed offshore should be used to pay a Living Wage and for the costs to the State as a result to be minimised.

126. LIVING WAGE WITHIN THE SECURITY INDUSTRY

Congress, since the Living wage was introduced in 2005, an estimated 7000 Security Officers within the top four UK Companies in the regulated Security sector have benefited. The Campaign for a living wage higher than the statutory minimum rate has stepped up a gear with leading politicians backing the drive for better pay.

Last year, London Mayor Boris Johnson announced that the Living Wage rate in the Capital is to increase by 25p an hour to £8.55, worth £4.5million a year for lower-paid workers. The rate outside London will also arise by 25p to £7.45, benefiting thousands of workers, and compares with the national minimum wage of £6.19 for adults.

An independent study of the business benefits of implementing a Living Wage policy in London found that more than 80% of employers believe that the Living Wage had enhanced the quality of the work of their staff, while absenteeism had fallen by approximately 25%. Two thirds of employers reported a significant impact on recruitment and retention within their organisation. 70% of employers felt that the Living Wage had increased consumer awareness of their organisation's commitment to be an ethical employer.

Zero hours is a common working practice within the security sector where an employee is asked to be available for work without any guarantees that work is available or where an employee is told that there will be work available on specific day(s).

This Congress is opposed to any kind of workplace exploitation of labour and is concerned about the increased practices of many organisations from the smallest of employer to multi-corporations that use all manner of headings to employ young people for zero or little reward therefore, we call upon GMB to initiate a national campaign to put a stop to such unfair practices that take advantage of the high unemployment and competitiveness for jobs and opportunities both amongst the youth academia and artisans of our country. We wish to achieve an acceptable position where training and experience can be reasonably affordable to companies and opportunities with a recognised pay structure available to our youth.

- No to graduates already encumbered with debt having to take voluntary training positions just to get recognised experience for their CV.
- No to any kind of long term unemployed training that does not result in a credible qualification unless such comes with a minimum living wage opportunity guaranteed.
- No to long hours for poorly or unpaid trainees within the Community Care or Health Sectors. This Congress calls on the GMB to examine and if needed put right the increasing practice of our legal advisors who would seem to be increasingly encouraging our members to take out of court financial

compensation settlements rather than going to tribunals to seek true justice even in cases when the member has a strong case.

We the GMB pride ourselves on being built on principals and we recruit by telling members that we will fight injustice and we will support and back them if their rights are attacked. Unfortunately the truth is that too often when they are made an offer to settle members are advised that if they don't take what is considered a 'good offer' then they are on their own.

In reality some of our members care more about our principles and their right to have 'their day in court' than any monetary compensation settlement. They need and want to hear the legal system say that what has happened to them is wrong.

The GMB must put a system in place that attempts to put a stop to unscrupulous bosses who get away with unfairly dismissing, discriminating against or causing harm to our members by being able to just pay them off to keep their mouths shut and go away.

If it has already been established that legally a member has a good chance of winning and they want to pursue their case by taking the company to task on the basic principle of what is right and what is wrong. 138. CHANGES TO REGULATION OF THE PRIVATE SECURITY SECTOR IN ENGLAND AND WALES

Congress, the London Security Branch is very concerned at proposals which could lead to greater non-compliance, facilitate more cutting of corners by security firms and make security officers less accountable.

The provisions outlined by the Government are not detailed enough to come to a conclusion. The new regime will require greater inspection, but there's little detail on how well equipped the Regulator will be to undertake such tasks. It is important to reiterate the important role private security plays in society and why it is so vitally important any rise in standards is not compromised.

The biggest risk is the removal of the national licence card and giving the individual licensing requirements to the industry. Removing the national licence card will therefore carry the following risks:

1. It will make it easier for those without licences to work in the sector – if displaying a licence is not a condition, it will no longer be obvious if someone does not possess a licence.
2. Companies will be able to deploy staff that haven't been licenced much more easily – with a national licence it's much more likely any unlicensed staff will be exposed.

3. If the creation of a licence card is given to the company this will also undermine the effectiveness – the company will have control of the licences and so will be able to issue them themselves (this opens up the risk of non-licenced staff being given licence cards).
4. It will also make it harder for the public to judge if a person has a legitimate licence if there are hundreds of different types in circulation.

The London Security Branch calls on the GMB not to agree to any Government changes until there are guarantees on the continuation of a national licence card issued by the Regulator and there are assurances in place when it comes to inspection resources.

139. NATIONALISE THE WATER SUPPLY INDUSTRY

This Congress calls on the GMB to campaign and seek the commitment of the Labour Party to take measures when back in Government to renationalise our water.

The water companies would have you believe that water is a commodity that we have to pay for – it is not. Gas and electric are commodities we could manage without if we had to, but water is life or death – with it you live – without it you die, as does every animal and plant on planet earth.

Yet our water supplies are in the hands of private companies that year on year increase the cost of our bills to enable them to make huge profits to pay out to shareholders and finance large salaries and bonuses to the bosses of these companies.

Yes we need to pay for maintenance of pipes and treatment of sewage but this should be a non-profit making industry. Just think how much lower everyone's water bills could be if there was no shares dividends, executive's wages and bonuses. Our nation's water supplies should be nationalised to provide a benefit to everyone in the nation.

142. OPPOSE OFGEM'S CUTS

Congress condemns the savage cuts being imposed on investment in the gas industry by the industry by the industry regulator, Ofgem. The 20% cut in gas distribution and 45% in gas transmission, coupled with changes to the gas mains replacement programme, will compromise safety and threaten security of the gas supply.

Congress calls for a GMB campaign at national, regional and branch level to ensure that a future Labour Government launches a strategic review of the gas industry. The review should focus on ensuring that the gas industry has proper levels of investment to ensure that high safety standards are maintained, whilst also protecting consumers' interests and the environment.

The failed and discredited regulator (Ofgem) should be scrapped, and any review should set out how future regulation of the gas industry will be achieved and put forward proposals for Ofgem's replacement by a body which, as well as protecting consumers, has a statutory duty to ensure the necessary investment in both the gas infrastructure and the skilled and directly-employed workforce needed to operate and maintain it.

143. A STRATEGY FOR GAS

As the Union for gas workers, GMB recognizes that over 80% of UK households are heated by gas. As a result, the nation will be dependent on gas for many decades to come.

However, Congress condemns any new dash to burn gas in order to produce baseload electricity. Congress believes that burning more gas to produce baseload electricity represents the economics of the madhouse, given that it will only serve to increase gas prices for domestic customers. Moreover, Congress recognizes that low-carbon alternatives like nuclear power are much better suited for producing baseload electricity.

Given that it will play such an important part in the energy mix for generations to come, Congress calls on the CEC to campaign for a comprehensive strategy for gas. The strategy should include:

Ensuring that there is sufficient investment in the gas infrastructure to keep it safe and efficient;

A commitment that the gas infrastructure is installed, operated and maintained by trained and properly rewarded direct labour;

Greater efforts and more investment being put into developing the next generation of energy-efficient gas boilers;

Tackling fuel poverty by placing obligations on the Government and energy companies to ensure that all homes are insulated to the highest possible standard and made as energy-efficient as possible to ensure gas bills are kept to a minimum;

C7 148. SUPPORTED EMPLOYMENT FOR DISABLED PEOPLE

This Congress should be pushing the next Labour Government in re-opening Remploy factories and be putting in place supported employment for disabled people.

Since the first announcement in March 2012 of Remploy factory closures and then the second announcement in December 2012, over 3,000 disabled people have lost their jobs for no fault of their own and over 70% are still unemployed, the most vulnerable disabled workers are the ones most affected.

Now is the time for Congress to ask what the next Labour Government is going to do in providing work for disabled people and what financial support they are going to offer in bringing back specialist workplaces for disabled people. Not only will it provide an income but also bring in a training programme to help our children of today with learning difficulties to establish themselves when they are ready to go to work.

It is an absolute disgrace to see all these Remploy factories closed down, years and years of hard work just gone down the drain. Remploy back in the 1970s employed over 12,000 employees just to see 40 years down the line NOTHING absolutely NOTHING.

C7 150. EMPLOYMENT OF DISABLED PEOPLE

This Congress notes that, whilst GMB policy was to fight the closure of Remploy, the condemned work programme has also been a spectacular flop. Something which does not console those disabled people in Remploy who were (and still are) made redundant from Remploy.

Initial figures reveal that approximately only 35 disabled people out of 1,200 have managed to find work. Making this closure of Remploy a complete and utter scandal.

Brothers and Sisters, a bigger scandal would be to leave the situation of employing disabled people as it is. A situation which leaves disabled people with very little hope of ever being financially and socially independent.

We urge congress to pressurise Labour when re-elected to carry out an immediate review of the employment of disabled people which also includes proposals for a profitable and sustainable factory and skill based employment.

C7 151. REMPLOY

This Congress to endorse a campaign/lobby of the Labour Party to include in its manifesto for the 2015 general election a commitment to consult with GMB and other unions, in the first term when elected, on supported employment for people with disabilities.

Over 80% of Remploy workers have still not found alternative employment after the disgraceful decision of factory closures by this coalition government; this must be addressed by exploring alternatives such as funded co-operatives etc so that some of our most vulnerable members in society have the dignity and respect they deserve.

C7 152. REMPLOY WORKERS

Congress condemns the actions of the Con-Dem government in closing Remploy factories.

The SAYCE report is not being followed as there is a total disregard of social enterprises and workers co-ops. Little or no help has been given to the disabled workers themselves to set up such enterprises.

Neither have the disabled people been given the support and opportunities to retrain to get mainstream jobs they were promised in the SAYCE report.

According to DPAC – Disabled People Against Cuts – Disabled people who want to work are more likely to be unemployed than non-disabled people in all official statistics since records began.

For example in 2011 the employment rate was 48.8% for disabled people compared to 78.5% for non-disabled people.

This Congress therefore calls upon the GMB to continue its fight to defend the remaining Remploy workers and oppose any further attacks on vulnerable people within society.

This Congress endorses a campaign for an independent inquiry into the closure of Remploy factories. Consultation of the final 54 sites with GMB and other unions was a sham and anything but meaningful. Government ministers Maria Miller, Ian Duncan Smith, Ester Mcvay and this coalition government now need to be made accountable for the disgraceful treatment of disabled workers at Remploy.

154. DEFENCE INVESTMENT

This Congress is aware that following this Government's 2010 strategic defence review, reductions in defence investment has left major gaps in our maritime capability. Locally, Devonport Naval Base and Dockyard have been particularly badly hit, by cuts in the capacity of the Royal Navy which is at an all-time low. This lack of investment means that all facets of defence, especially those that involve our members, has seen a steady but inexorable decline with a corresponding drive down of GMB membership. Our members face hardship and uncertainty, let us not forget, from the lessons of history this dangerous attitude has been played out by successive governments and has cost this country dear, it affects all of us who work in the defence industries and let us not forget that many of our Trade Union members and their families are in the front line serving in or alongside our armed services, many more have been or are ex members of the regular armed or reserve forces. We therefore call upon this, and indeed any subsequent government to increase defence spending and ensure that we safeguard our Dockyards and future maritime capability.

156. SAVE OUR STEEL INDUSTRY

This Congress notes with concern the 23rd November announcement by Tata Steels of 900 job losses in the UK. Whilst tempered with the news of investment by Tata, that is of no consolation to those losing their jobs and their families. In addition, the job losses will impact on local economies, both in terms of reduced spending in local shops and the knock on effect on other businesses in these areas.

Tata's announcement shows the total failure of the ConDems policies. If they were working, large scale job losses would be a thing of the past, not the regular occurrence it has become since 2010. It is also an indictment on the lack of support for Britain's steel industry in particular and, in manufacturing in general, by successive governments. The proud record of the British steel industry is being consigned to the history books. Just like our utilities, the steel industry is no longer British owned. As a result of the failure to protect British industry, our livelihoods, our economic well-being is not in the hands of EU bureaucrats, as the right wing tell us, but by foreign capitalists. The time has come to change all this.

As the Tories and Lib Dems cannot be trusted, Congress calls on the Labour Party to offer alternative policies to protect the steel industry in particular and manufacturing in general. It needs to discuss with trade unions, rather than just employers, about what needs to be done, including serious consideration of re-nationalising the steel industry. Without steel, nothing gets made. Just as with utilities and transport, the steel industry is too important to be left as the playthings of capitalists.

Save our steel industry. Save our jobs. Save our economy.

160. PUBLIC SECTOR CUTS

This Congress is cognisant of the fact that front line Public Sector Workers know all about low morale, misery, low self-esteem and the struggle to make ends meet.

We have suffered a pay freeze over the last three years which, in reality, is a pay cut, with further cuts and threats to jobs to well into the future beyond 2018 with inflation, taxes, cost of living, food, fuel heating costs, petrol. Some Public Sector Workers have to work 37 hours a week or more and have to claim family credits or other benefits to be able to live. Whilst Politicians, Councillors, Chief Executives, Heads of Services and Bankers, who have massive inflatable pay rises, then, cannot do the jobs they get paid for and take on consultants at a cost to ourselves, the Tax Payer.

The failed collaborations and the Job Evaluation/Single Status exercises both wasted money at our expense. We are paying for all their mistakes not our mistakes, and then they say we are all in it together. I don't think so then they give themselves massive bonuses. We cannot see any light at the end of the tunnel or any hope or future just further misery, despair and hardship for the working people. How much longer can we take cut, cut, cut the bubble will soon burst and then what have we got, nothing.

We call upon Congress to continue to argue for a strong public services base in this Country and to campaign for fair pay for those workers who deliver those services.

I call to congress to request the Labour Leadership that they show more empathy and solidarity with all Local Authority bodies facing unprecedented cuts brought on by this CONDEM government.

Local Labour parties have been leading fight back after fight back without what appears to be direct support from the Labour Leadership in the media.

Sitting back and letting the CONDEM destroy the fabric of our society whilst waiting in the wings to arrive as knights in shining armor come the next general election is opportunist in nature and shows no visible leadership to the Trade Unions and to its voters.

Once the CONDEMS have dismantled the machinery that provides the best Home care, Nursery Care compared to the profiteers lapping up their champagne cocktails on overcharging because their monopoly cannot be challenged and employing staff on below Living Standard wages and worst Terms and Conditions know since Victorian Times, will the Labour Party Leadership give an undertaking to write the wrongs made by the CONDEM?

164. SUBSTITUTING COUNCIL RESERVES FOR TREASURY FUNDING

Congress views with concern the call by Eric Pickles, Secretary of State for Communities, for Councils to spend their financial reserves and resources on providing Council services rather than them being financed, as they should be, by Central Government.

Congress agrees the reality of such a policy, as described by Brian Strutton, National Secretary, is that Local Government employees who have suffered a three year pay freeze, are subsidising the services they provide. Frozen wages are financing essential services. There cannot be a starker example of the contempt on which Pickles and his Coalition colleagues hold Local Authority workers.

As well as signalling the need for a more vigorous Fair Pay Campaign, this motion calls for high profile publicity campaigns highlighting the subterfuge this Coalition adopts in stooping to exploit working people and their communities.

Many of our members have not had a pay increase for 6 years now because they earn £22,150.

This is way below the national average wage income. Whilst we recognise there are many in our country who earn a lot less, they are still in receipt of a rise.

The Task Force to be made up of a number of Key Activists and Officers from Public Services in each region. The purpose of which should be to develop, identify and progress a National Strategy for all Public Services around:

Membership retention
Campaigning and recruitment

It's a fact that some Branches up and down the Country are already delivering some fantastic results in Public Services using the GMB@Work strategy. However faced with some unprecedented and continuing attacks on our Public Services it seems only sensible to set up a National Strategy for Public Services alone. Congress, more and more these days PFIs are being used as the source of finance to fund large projects and sometimes much needed improvements for our needs.

Congress we believe however that there needs to be safeguards in this system. In any situation where huge sums of money are being raised there is the risk that things are not always as they appear.

We must ensure that all the money being used in these projects are safely being used by companies who have an untarnished reputation with no illegal past history in any of its businesses.

For example in King's Lynn a proposed incinerator which will be PFI funded has been handed to a company who has been fined in America for pollution of sensitive wetlands and according to a statement in Parliament fraudulent actions of associated companies.

This cannot be right to hand over such large sums of money to any organisation for any project whose record is tarnished.

174. BOGUS SELF-EMPLOYMENT AND PAYROLL COMPANIES

This Congress notes that many employers on major government funded contracts are using the recession to further increase the use of bogus self-employment, agency labour and payroll companies.

Bogus self-employment not only denies workers of their entitlement to basic rights such as holiday pay, sick pay, lay off pay and redundancy, but also costs the economy approaching £2 billion.

Direct employment should be the norm for all workers, but especially on government funded contracts.

After the delays by the last Labour Government which prevented a national agreement being placed on the statute book, this should be a priority for the Labour Party when next in power. The GMB now has many school based members and the creation of a national agreement is the best way of ensuring minimum national terms and conditions.

Congress condemns the Coalition's changes to appraisal and capability procedures in maintained schools which are encouraging and making it easier for Heads and Governing Bodies to dismiss and otherwise drive out Teachers, Teaching Assistants, Meals Staff, Cleaners and others. These changes have led to a big upsurge in bullying and intimidation in the workplace, with older and better paid staff prominent amongst those who are increasingly being targeted for removal, by fair means or foul, even when they have impeccable performance records.

C9 184. CAMPAIGN FOR NATIONAL ACTION TO DEFEND THE NHS

Congress, the very future of the NHS is at threat.

- Huge cuts in public services are threatening hospital and community services up and down the country with closure.
- Thousands of health workers jobs have been cut threatening front line services whilst the pay and conditions of NHS staff are under the most serious attack ever.
- Private companies now run significant parts of our NHS for profit, and the Health and Social Care Act will accelerate that process further with services in whole hospitals and areas being readied for privatisation.

There has been massive opposition to the attacks with huge local protests against closures, with health workers beginning to fight back, and with unprecedented numbers of people taking some form of action against Lansley's Health Bill.

Trade Union Activists and anti-cuts campaigners want to join a fight back but need far clearer calls for action now not just after the next election. A serious national campaign of action is urgently needed backed by the Trade Unions and the Labour Party.

We note the public support of the Labour Party for the repeal of the Health and Social Care Act. We urge the Party to make this a firm manifesto commitment, as well as pledging to reverse privatisation of existing health services by bringing them back into the NHS and to end the principle that "any qualified provider" should be allowed to bid to deliver health services.

We call on our union to:

- Give maximum support for campaigns and industrial action against cuts and privatisation
- Campaign for nationally co-ordinated action
- Give national campaigns such as Keep Our NHS Public the support and resources they need to continue their work
- Call a national demonstration in defence of the NHS to highlight the threat to the health service and to help co-ordinate and build the campaigns and the action to defend it.

193. SOUTH WEST NHS PAY CARTEL

This Congress supports action to stop the break-up of the NHS National Terms and Conditions and its preparations for handing over services to private providers.

19 NHS employers in the South West of England have banded together to form an employers group that intends to break away from National pay bargaining. Under the guise of the economic challenge they are looking at ways of drastically cutting pay for local NHS staff by up to 20% in numerous hospitals. This will lead to different rates of pay for NHS staff employed within the same cities dependent upon the decisions of each individual Trust. It will also prepare many of the profitable services for selling off to the private sector.

The effect upon local health communities will be devastating as staff move to areas that are receiving higher pay rates, causing staff shortages in the South West. There can be little doubt that this will seriously undermine the ability of the NHS in the South West to provide the level and quality of care needed. Already we are aware that hospitals in the area are recruiting from abroad as they are unable to attract staff to the area. Housing costs etc. are high in the area. The population within the South West is older than in many areas as it is a prime retirement area. This is leading to increased pressure on NHS and Social Services.

Local economies are already struggling with massive drops in incomes as pensions and benefits are pegged below inflation. All Public Sector workers have seen long term pay freezes and thousands of job losses. Within the South West public sector employment is higher than most other areas within the country and the cuts have already disproportionately affected the area. The local economies are very dependent upon tourism that has suffered significant downturns as people's incomes become squeezed. To cut the pay of NHS workers even further will lead to increased financial pressures on local businesses and further job losses in the private sector.

We call upon Congress through the CEC

- To put national pressure on the cartel members to call for funding increases not staff pay cuts.
- To continue the lobbying of MPs for the area and generate a national campaign against the proposal for local pay and ensure that national agreements are upheld.
- Through its GMB sponsored MPs the Labour Party should commit to a policy of maintaining national negotiations for NHS staff terms and conditions and disbanding the cartel.

C12 198. HAS THE CARE GONE OUT OF CARE FOR THE CARERS

This Congress we respectfully call upon to bring pressure to the government to look at new legislation concerning the private sector of the care industry, one of the fastest growing industries in our country. There is no legislation setting out a ratio between the number of staff and service users.

The CQC standards say that as long as the service users are not at risk of harm due to incorrect staffing levels, then they have nothing in place that addresses the level of staff in a care home; it is left to the manager's discretion. This however leaves the recommendations of the CQC open to abuse by penny-pinching managers and owners, who do not want to pay for staff.

We are aware of a care home where there are 29 service users on one floor all of which need personal care consisting of showers, baths, incontinence pads changing, catheter bags emptying, meals serving, beds changing and there are only two care assistants allocated to meet their needs and a senior member off staff to administer medication, do daily reports and help with meals if possible.

Can anyone put their hand on their heart and say that it is acceptable that two people should be expected to take responsibility for 29 people, work in this environment and be paid minimum wage?

People seem to live with the misconceptions that care assistants make cups of tea, serve up meals, make beds and sit chatting to service users. Long gone are those days unless you work in a residential home where the Service Users are quite independent and need a small amount of time for personal care and the home is well staffed.

Due to the present government's approach to care, whereby those people who are mobile and do not need specialist care are encouraged to stay in their own homes with support from community care workers. The trend in residential / nursing care homes is changing, in that, the people coming in to care are people with more complex needs such as behavioural problems, alzheimers, dementia, alcohol and drug abuse as well as mental health problems. This is resulting in people being accepted into care homes which cannot provide them with the correct care they require.

Many homes give in-house training, this consists of watching a DVD followed by a question and answer session and then receiving a certificate that goes into their personal file to show any inspecting body that a person has been trained in that subject. (This is a joke).

The government has responded to the recent outcry over care provided in hospitals and care homes to sufferers of dementia by proposing to give more money to the hospitals and private care sector. I believe that there are some owners who will not use this money where it is needed but will use it to their own advantage.

What the government should be doing is closing loopholes in the legislation which allow bad management in the care of the elderly and vulnerable adults. Look at putting a system of assessments in place to stop poorly staffed homes taking in service users with special needs. Put the money into building facilities that meet the requirements of these people with the right number of staff with the correct training and with legislation in place to protect both service users and care assistants alike from being exploited by greedy owners.

Let the GMB take up the challenge and start a National campaign to put legislation in place where by the ratio of care assistants to Service Users is more realistic and also ensure that before a person goes to work in a care home of any kind they have a minimum of a NVQ Level 2 Certificate or similar in Health Care.

Let us stop hearing the horror stories about the care industry, and put the right legislation in place to stop them.

X 200. FAIR PAY FOR A DAYS WORK

This Congress we respectfully ask to take up the challenge to change the pay structure within the care industry.

Although sex discrimination laws outlaw men getting paid more than women for doing the same job, historically care has been carried out by mostly women and therefore low has been the norm.

We ask that these workers be given a living wage that reflects the responsibility they take on every day. Most are responsible for very frail and vulnerable people who need specialist care that cannot be given to them in their own homes or hospital.

Most care assistants are paid the minimum wage and receive a few pence more for having an NVO level 2 and if they are a senior care assistant with a Level 3 they may receive a pound more.

Care assistants under the age of 21 doing exactly the same job as a person over 21 and will receive less money on average which is just over five pounds at the minimum wage rate. Some care homes have started apprenticeships for care assistants paying just over two pounds per hour. We got rid of age discrimination but are we not discriminating against a person who is under 21 who is doing exactly the same job as a person older than them?

Most care assistants supplement their wage by working for agencies or picking up extra shifts in their workplace rather than having a day off to rest.

Is it not time we paid the care assistants what they are worth and give them the respect they deserve. An average day for a care assistant can be as follows

1. 7.30am briefing from the night staff.
2. 8.00am check the residents in their rooms; give drinks to those who are awake.
3. Give drinks to the residents which the night staff may have got up and are in the lounge.
4. Care assistants give personal care to those residents that can come out of their beds into the communal lounge ready for breakfast.
5. 8.30 – 9.45 serve breakfast to those residents that can feed themselves.
6. Take breakfast to and assist (feed residents) that are unable to feed themselves.
7. Collect all dirty pots rinse off and take to kitchen with the hot cupboard.
8. Resume giving personal care to residents, this can be bed baths, showers, or strip washes, emptying and changing catheter bags, changing stoma bags. Many residents have to be hoisted into wheelchairs to be transported from their rooms, after their beds have been stripped and remade as they are normally soiled even if pads are worn during the night.
9. Residents who are unable to leave their beds have to be bed bathed, clean clothes and pads put on and pressure care is given (turned every 1 or 2 hours).
10. At some point the care assistants will be able to have a 10 minute break.
11. By the time most of the residents are washed and dressed, it will be time for lunch.
12. Lunch is served and the whole process of feeding the residents starts again.
13. The carers will have a 20 min break if they are working a full day (12 -13 hours) and then start the whole process again changing residents and their beds again if required, this continues up until tea time when the whole process is repeated, residents are fed, then washed changed and put to bed, if not already in bed

It is a disgrace that people have to work like this, for a minimum wage and with little or no thanks?

We ask the GMB to take up this challenge and run a national campaign to raise wages in the care industry by a substantial amount above the minimum wage.

201. LIVERPOOL CARE PATHWAY

This Congress calls upon the GMB to campaign to ensure that those receiving end of life care are afforded all necessary support and appropriate care during the latter stages of their life.

We are deeply concerned that evidence has come to light that some of the pathways in managing end of life care may be contrary to the dignity of the individuals concerned, especially where access to necessary nourishment, food or drink is denied as a means of speeding up the end of life.

We are asking the GMB to work with our members in the care professions and other caring organisations to ensure that those who are facing terminal illness can enter this stage of their life in the full knowledge that their dignity and humanity will be preserved at all stages till it reaches a natural end. Furthermore, we ask that the Quality Care Commission (QCC) and Healthcare Trusts/NHS include in their scrutiny the management of end of life care to ensure strict and appropriate guidelines are followed in managing people with terminal illness.

This Congress agrees to run a national campaign with regards to the introduction of the Living Wage into the Care Sector, starting with the care providers GMB are currently recognised with. The campaign will include the lobbying of politicians currently in Government and those of the Labour Party.

The standard of care within this sector and for the most vulnerable in our society has been subject to much debate, around how to stamp out abuse and increase standards, a starting point must be to offer a decent rate of pay that will attract the most skilled careers back into the business and be able to retain the current experienced ones that are struggling to put food on the table being paid minimum wage.

216. UK INDUSTRIAL POLICY

This Congress supports the work of the TUC in developing thinking towards an Industrial policy for the UK in its "German Lessons" publication¹.

Congress supports a UK industrial policy based on core principles including:

- The need to rebalance the economy away from cushioning the financial chicanery of the City of London and towards a productive, job creating productive economy;
- The need for 'patient' finance to the productive economy;

- The development of a high skilled productive workforce through a training and development levy of companies, organised through licenced sectoral bodies made up of employers and employees representatives;
- The development of robust, quality, apprenticeship programs run by sectoral bodies made up of employers and employees representatives;
- The radical reform of the finance and banking industry, to create a utilitarian banking system focused on productive job creation;
- The use of Government contract tendering to drive and reward companies on socially useful grounds (job creation, skill promotion, promotion of industrial relations, tax compliancy etc)
- Raising finance for industrial research and development through a financial transactions tax to suppress socially useless financial speculation;
- The need for tax fairness and an end to tax havenry to allow great companies to develop on a level taxation 'playing field';
- The reform of company law to stress the societal obligations of those petitioning for limited company status over short-term shareholder return;
- The development of industrial planning through national and regional economic partnership bodies;
- The need to create a "Green New Deal"

In furtherance of this motion Congress instructs the GMB to:

- publish a fully researched case for a UK Industrial policy
- consult widely amongst GMB branches as part of the process of researching for a UK Industrial policy;
- actively press the case for the GMB conception of a UK Industrial policy at the TUC, with GMB sponsored MPs and within the Labour Party as a whole, with other political parties and with civic society;
- Host a one day national, public conference to launch the GMB case for a UK Industrial policy, followed by a series of regional events;
- Plan a public campaign to propagate the need for a UK Industrial policy, including a full-hearted press and media campaign

2. It continues to aggressively attack employee rights at work and their ability to hold employers to account.
3. The impact of Government policies are that the living standards of the working class have been reduced, whilst the living standards of the richest 1% have continued to increase.

This Congress believes:

4. That the attacks by this government on social security, employment security and health and well-being for the vast majority of people will continue and increase.
5. That an effective campaign to defend public services and living standards may require acts of peaceful civil disobedience and protest.

225. THE BRITISH ECONOMY

This Congress notes

- That the British economy contracted in the last 3 quarters of 2012 which was the longest double-dip recession for over 70 years. Since the coalition's emergency June 2010 Budget the economy has not grown at all. By comparison the main industrialised countries of the OECD have grown by 3.3% over the same period.
- The Coalition claims that its policies are aimed at deficit-reduction. But the deficit is on a sharply upward path, rising by nearly a quarter in 2012.

Congress welcomes the Labour Party's 5-point plan for economic recovery. This includes:

1. £2bn tax on bank bonuses to pay for 25,000 'more affordable' homes and it claims there would be a jobs guarantee for all young people.
2. Bring forward investment projects like new school buildings.
3. Temporarily reverse the Tory-led Governments VAT rise – a £450 boost for families with children.
4. Cut VAT on home improvements to 5% for a year.
5. Give small firms a tax break to take on extra workers.

Congress believes that

- The Coalition policy is a complete failure, causing the economy to contract, living standards to fall and the deficit to rise.
- The commitment to create new jobs and homes under the 5-point plan is welcome, but insufficient.

Congress further believes that

- The scale of the country's problems goes far beyond the scale of the response outlined by the Labour Party's the 5-point plan.
- £2bn from the bankers' bonus tax is insufficient compared to the £56bn investment shortfall which has caused the recession.
- £2bn could fund EITHER 25,000 new homes OR could provide minimum wage for 200,000 under-25s. It can't do both.
- 25,000 "affordable homes" is inadequate compared to the 1.8m households on council waiting lists in England alone.

Congress reaffirms that GMB resources should be directed to supporting candidates who promote the interests of GMB members.

Congress notes that regrettably not all Labour candidates are pledged to collective ownership, under democratic control, of the means of production, distribution and exchange.

Congress further notes that the MP for Brighton Pavillion, Caroline Lucas, does broadly support the political aspirations of the GMB, and that she has worked collaboratively with GMB when applicable, to promote the interests of our members.

235. EMPLOYMENT LEGISLATION & LABOUR GOVERNMENT

Congress recognizes that at the time of meeting, there is less than two years to the next General Election.

It is a belief that a Labour Government may realistically be returned after only one term in opposition. It is recognized that many traditional Labour voters have turned from our party and if the movement can persuade them to support in 2015, the following five years must demonstrate that Labour are on their side and must deliver tangible benefits to working people.

Congress recognizes that it is not politically possible to reverse all the Thatcher/Major, anti-working people legislation, but an incoming Labour government must selectively introduce progressive employment legislation which is currently 'stacked' heavily in favour of employers.

Congress wishes to see the production of a priority list of possible improvements with the intention of levelling the playing field as regards employment rights. The GMB leadership in conjunction with sister unions, its own CEC and political committee and membership, must produce a list of priorities which it expects a new Labour Government to introduce and is a pre-requisite for our support, financially and logistically.

Improvements to current industrial action balloting, so removing employers' ability to stop action on technicalities, dismissal rules on the basis of a civil test of balance of possibilities rather than reasonable belief, trade union recognition on a majority of those voting, are a few examples, but clearly this is not an exhaustive list.

Congress wishes the production a priority agenda which Labour must sign up to. Individual Labour candidates must similarly agree to support these priorities in return for the financial and other support mechanisms which they clearly require if they are to be elected.

Congress expects our requirements to be in place for Congress 2014, by which time we will be less than one year from the election.

238. THE LABOUR PARTY AND ITS POLICY ON WELFARE

Congress condemns the vicious attacks that the Con-Dem Government has launched against the most vulnerable members of society, such as the unemployed and people with disabilities, using them as scapegoats for the economic crisis. The rhetoric being used harks back to 19th century notions of deserving and undeserving poor, when unemployed people were blamed for their plight and forced into workhouses so as not to be a “drain” on society. The misuse of data is also shocking (e.g. George Osborne launched a whole policy to limit the number of children the poor can have pointing to the number of families claiming 100K housing benefit per year – when an FOI was sent to the DWP it turns out this is just five families).

However, Congress is equally disappointed at the failure of the Labour Party to properly challenge the Government’s assault on the unemployed and other vulnerable members of our society. Instead of attacking the neoliberal ideology that underpins the Con-Dems thinking, and seeking to provide a genuine alternative perspective – based on equality, justice and fairness for all – it concedes the principle that there are deserving and undeserving poor. For example, Ed Balls has stated that if Labour wins the next election, after two years the unemployed will have to accept any job or lose their benefits.

Congress calls upon the CEC to lobby the Labour Party to change its policy on welfare to reflect the long-established principles of the Welfare State.

Far too often, the NEC shortlisting committee dictates the choices available to local party members by parachuting candidates into constituencies without any explanation for their decision.

In order to give CLP members a genuine, democratic choice, Congress calls on the Labour Party to:

1. Have shortlists of at least six at CLP selection meetings
2. Those shortlisted to hold a cross section of views to represent the various strands of opinion within the Party
3. At least one shortlisted candidate to be selected by the region.

Congress calls on GMB to lobby at every level within the Labour Party for this motion, and others passed at the 2012 Labour Party conference, to be included in the Party's Rolling Programme of policies.

Congress reaffirms its belief that the GMB and other affiliates, and the constituency parties, must be able to move amendments to the Party policy documents at conference, or refer back parts of them rather than being required to accept or reject them in their entirety. Conference should vote to decide between alternative options.

Congress further welcomes the statement by Ed Miliband that "We should not be afraid of debate".

Congress therefore resolves to ask GMB delegates to the Labour Party National Executive Committee to push for the NEC to remove the restrictive "contemporary" criteria from motions, which ruled out 60 motions for the 2012 conference.

This Congress notes that, as reported in the press the Scottish parliament has taken the progressive step in allowing 16 year olds to take part in the referendum deciding the future of Scotland staying within the union.

As it is theirs and future generations that are going to be greatly affected by the decisions being made this is the right thing to do and in these troubled times it is about time Westminster also allowed all British 16 year olds to vote and have a say in decisions being made that will determine their future.

In the 2007-2008 parliamentary sessions a private members bill was sponsored by Julie Morgan and only got to the second reading in the commons, October 2012 introduced into the House of Lords sponsored by Lord Tyler awaiting a date for its second reading.

This motion is asking the CEC to support this bill and lobby parliament for its speedy introduction onto the statute book.

After a number of false dawns, Britain is still essentially run in the same way, by the same people as two centuries ago. Congress therefore, calls on the next Labour government to set up a Constitutional Convention, composed of ordinary voters, not the usual suspects of academics, jurists and politicians.

This would have a remit to look at all aspects and components of the constitution, looking at how to bring it into the 21st Century. Such a convention would be given 12 months to report back, not just to Parliament but to the whole population its findings and to have a speedy implementation by the government of its recommendations.

Congress notes the campaign by Fairer Gambling who have released figures which state that more than £2billion was gambled using "fixed odds betting terminals".

These machines are known as "crack cocaine of gambling". There must be a cap on the number of these machines in individual betting shops.

The Government should carry out a review of FOBT's that considers reducing the maximum stake from £100, increasing the time between plays and the way the machines are licensed. We also believe that the best way to prevent the further clustering of betting shops is to change their planning category, giving residents and local government more say over their local high street.

C16 261. BETTING SHOPS, HIGH STAKE GAMING MACHINES AND FIXED ODDS TERMINALS

Congress agrees that gambling can become a serious addiction and is increasingly the cause of serious financial problems in families. This motion notes with concern the rapid proliferation of high stake gaming machines and fixed odds terminals in betting shops. These additions to conventional gambling are rightly referred to as "the Cocaine of the Gambling Industry" and are mushrooming in every High Street, and poorer communities.

The growth of these establishments coupled with the industry call for further deregulation should set alarm bells ringing.

This motion is not calling for a return to the days of back street bookies but calls for control of the concentration and form of gambling on our High Streets to be controlled by Local Authorities.

EP 269. LEGAL AID CUTS

This Congress is aware that in April this year our Legal Aid system will collapse, which will cause a devastating effect to millions of people!

Which means the people who cannot afford to pay for a solicitor, will be unable to get justice, so the poorest people in our society will suffer!

Under the Legal Advice and Assistance Act 1949, our Legal Aid system started but now suddenly this coalition government has decided we do not need it and wants to save £350,000,000 cutting the system! But without some of the general public having access to Legal Aid this will cause a lot of problems, and there is a strong possibility of it costing the taxpayer more money in the long run. The people who cannot access Legal Aid will pursue cases which have a limited chance of success, and as these will lack legal advice and will be unrepresented, they will also take longer to resolve, as they lack the professionalism and quality a solicitor brings to the case, so will end up costing more. So if the Court system is dealing with a lot more cases like these the costs will increase with each one.

Also due to there being a lot of cases, this will cause a backlog, which will slow the system, and again cost more money.

The cuts will affect a lot of people as there will be cuts for divorces, adoption, family maintenance, welfare benefits and employment matters so could potentially affect thousands of people. This government has attacked our jobs, our NHS, our Councils, our rights at work, now our Legal Aid system. Where is it going to stop?

This is wrong! The most vulnerable people will suffer because of this, whilst the rich who can afford to pay will get justice our legal services should provide for all not just the rich.

We need to campaign to fight this up and down the country, and petition the government, and not rest until our Legal Aid system is restored to how it was.

This Congress calls upon the Labour Party to condemn the revised Criminal Injuries Compensation Scheme which came into force in November 2012. The revision of this Scheme will take away the right to compensation from those suffering minor injuries which the original Scheme could be awarded compensation of between £1,000 to £2,000 and this would impact on nearly 90% of the victims of violent crimes.

We call upon the Labour Party which they form the next government to amend this legislation which was the last safety net for many victims of crime who could not receive compensation through other means and went some way to help them overcome the trauma of an assault or attack whilst carrying out their employment.

The recent Hillsborough Enquiry shows the pattern of police corruption in South Yorkshire police, and in fact Orgreave is part of the pattern of cover ups and lies by the police from many different forces, which are now being exposed.

In particular, allegations are now being made, with some regularity, about the events that took place during Miners' Strike of 1984-1985.

C18 277. MORE FUNDING REQUIRED FOR SCHOOLS AND COMMUNITIES IN DEPRIVED AREAS TO REDUCE INEQUALITIES IN EDUCATIONAL ATTAINMENT AND GIVE CHILDREN A BETTER CHANCE OF ESCAPING THE POVERTY TRAP

This Congress notes that the gulf between the poor and rich of the world is widening. Within the UK, the financial gap between the wealthy and the poor is not narrowing and differences in health between social classes are becoming greater. Poverty and social inequality have direct and indirect effects on the social, mental and physical well-being of an individual. It is important to note that poverty and inequality are closely linked. It is believed that income inequality produces psychosocial stress which leads to deteriorating health and higher mortality over time. Those who live in deprived communities, where there is under-investment in the social and physical infrastructure, experience poor health, resulting in higher mortality for those of lower socio-economic class. The effects of income inequality also spill over into society, causing stress, frustration and family disruption, which then increase the rates of crime, homicide and violence.

We therefore call upon Congress to support extra funding for schools in deprived areas and also the need for community funding for parenting classes/education for parents around health and nutrition and literacy.

This Congress recognises the value of Social Housing to the community.

It condemns the Tory led government policy on 'right to buy' which will seriously reduce the social housing availability and add to the 1.7 million people in England alone on the ever-growing council house waiting list.

It recognises that the social housing shortage can only be addressed by a massive programme of house building and that this must be built by directly employed workers and to the highest environmental and sustainable standards of this National Code for Sustainable Homes.

It's no good leaving the market to decide, that's what's got us into this mess!

However, when it comes to payments like Council Tax or deductions from wages for National Insurance we don't know where our money is being used.

Council Tax payments must show the cost to the individual household for each service it is used for such as refuse collection, housing repairs, youth provision, and so on, and in the same terms we should be pushing Government to give us individual details on the deductions from our wages of National Insurance payments, such as how much is used for the NHS and how much for defence.

This Congress believes a £33 billion north-south high-speed rail scheme planned to extend the HS2 line to the North of England is unlikely to bring benefits to Plymouth or the wider South West.

With rail spending per head in the South West just a third of that in the rest of the country there is concern that Plymouth and the far south west will be side-lined economically.

It's crucial the Government doesn't forget the significance of the South West and the need for investment in our transport system but it appears once again the West Country is the poor relation when it comes to rail improvements and economic investment.

Better transport links would safeguard our member's jobs and would create much needed jobs now and boost our economy.

292. EUROTUNNEL

Congress notes with concern, the ever increasing dominance of Eurotunnel in the highly competitive Ferry, coastal shipping and tunnel market.

Congress urges the GMB leadership to lobby and campaign with its various partners in the UK and in Europe, to ensure a level playing field in an industry facing immense challenges in recession Europe.

Congress notes that the Channel Tunnel Treaty was signed by Thatcher and President Mitterrand and much state sponsorship was provided for the construction of a fixed link between the UK and France/Europe. Congress further notes, due to the underlying unsustainable business model created by construction costs, shareholders have taken a 'substantial hit', leaving the current business unburdened by the building expense. The ferry owners do not enjoy the effective benefit of having expensive ship construction costs written off.

Congress is alarmed by the dominance of Eurotunnel, heightened further by the purchase of former Sea France ships, following the collapse of the French Rail subsidiary. Congress is further alarmed by the expansion policies of Eurotunnel, which now see as part of its plans, a wish to control the Northern France ports of Dunkirk, Calais and Boulogne.

Congress believes that Eurotunnel already command many unfair advantages as opposed to the ferry companies and in a world dominated by Oil and an ever rising Oil cost burden, which has no impact on the Tunnel, there is a serious possibility of a totally dominant player, surrounded by a fractured and weak Ferry industry, which is in no one's long term interest.

Congress Requests the GMB leadership to work in the UK and in Europe, with Government and other social partners, to ensure a true level playing field and eradicate any unfair competitive advantages, in the industry which provides vital trade links and moves people and goods around Europe.

We are in no doubt that this rhetoric is a blind to cover their unnecessary economic attack on working people, designed to set worker against worker, against the unemployed and pensioners generally.

C23 303. THE BEDROOM TAX

This Congress notes:

1. The Government has enacted legislation called the Welfare Reform Act ("the Act") due to come into force in April 2013.
2. The Act reduces housing benefit by between 14% and 25% for those in social housing (council housing or housing association housing) if they are deemed to be 'under occupying'.
3. 'Under occupying' includes:
 - 3.1 Having one more room for each single person or couple (even if the 'extra' room is a box room or for storing disability equipment).
 - 3.2 Having more than one room for two children under 10 of a different gender.
 - 3.3 Having more than one room for two children under 16 of the same gender.
 - 3.4 Having a room for a foster child.
4. Across the country there are already 1 million people on council waiting lists for one bedroom properties. In Leeds 20,000 council homes have been lost in the last 15 years.
5. The Welfare Minister, Lord Freud, owns a London Home worth an estimated £1.9million but pays only an estimated three times as much council tax as a person living in a bedsit.
6. The Government refused to implement a tax on very high value residential property or re-assess council tax on these mansions.
7. Official estimates are that 95,000 families will be forced into poverty due to the bedroom tax.
8. The Hooper family (reported in *The Mirror 27 January 2013*) have five children and live in a four-bedroom Council house in Hull. Their disabled daughter has her own room – built as an extension, as her wheelchair doesn't fit in the box room. The Hooper family will lose £20 per week due to the bedroom tax as not all children are sharing a room.

This Congress believes:

9. That under occupancy of Council housing is not the problem, the lack of Council housing being built is the real problem that needs addressing.
10. Even where a resident would prefer to down-size, there are no properties to move into.
11. That solution to a lack of social housing is not to punish those who live in social housing but to build more council homes.

This Congress resolves:

12. To support any GMB members affected by this policy who raise it with the union.
13. To publicise the unfair impact of this law and support campaigns for it to be abolished.
14. To support any network of those tenants effected.
15. To ask local Councils to take any practical measures to mitigate or avoid the impact of this legislation i.e. by not enforcing arrears and not evicting tenants where the eviction is caused by this benefit change.
16. To ask that GMB sponsored Councillors act in a manner consistent with this motion.

308. A CALL TO BOYCOTT WORKFARE SCHEMES

Congress notes:

- There are currently several schemes which place benefit claimants on compulsory work placements including: mandatory work activity, the DWP's 'Work Experience' programme and 'Community Action Programme', and all of what is mandated by the private companies running the Work Programme including A4E and Avanta.
- All of these schemes force a claimant to work **without pay** and on threat of loss of benefits if they refuse to participate.
- As well as this being an attack on claimants, it is also an attack on workers, as free, government subsidised labour inevitably pushes down wages and terms and conditions, and ultimately replaces paid jobs.

Congress condemns:

All those employers who profit from the unpaid labour these schemes require, including retailers such as Poundland, Superdrug and Asda; charities including British Heart Foundation and Cancer Research; and local authorities, including Labour run Newham and Haringey Councils.

Congress applauds:

- Both Unite and PCS trade unions who have already pledged a boycott of workfare placements.
- The innovative and inspiring action by groups such as Boycott Workfare, Solidarity Federation, and many claimants groups, whose persistent pickets and campaigning has so far caused both Oxfam and Holland & Barrett to bow to pressure and pull out of the schemes.
- The motion passed at the Trades Union Councils Annual Conference 2012 which resolved to support the call for a boycott of workfare placements.

Congress resolves to:

- Officially affiliate to the Boycott Workfare campaign.
- Recognise that the labour movement should be at the forefront of fighting this restructuring of the labour market, and therefore make this issue one of our campaigning priorities.
- Use our networks and media links to publicise this campaign, and name and shame those employers who participate in it.
- Publicise the details of different claimants support and campaign groups amongst our own union networks, branches and members.
- Encourage members to participate in local and national actions and demonstrations against workfare, and to advertise these widely.
- Use our links to the Labour Party to get them to pledge to abolish all of these schemes, and any other form of mandatory unpaid work if re-elected
- Recognise that as organised workers we should use our collective strength to act in solidarity with those claimants being exploited, by leading and supporting a boycott of workfare placements and all forms of compulsory unpaid work at a local level by all means necessary, up to and including industrial action.

We recognise that it is both an attempt to force unemployed workers to work for free, and an attempt to undermine wages and conditions for all workers.

Furthermore the Work Programme is the privatisation of unemployment, as providers are paid for each person referred to them.

The Work Programme has failed to help get unemployed people into work, with A4E helping just 4 percent of their customers into work.

Congress therefore agrees to call for the immediate cancellation of the Work Programme and demands that an incoming Labour Government abandons all such schemes and ensures that the living wage applies for all workers.

In my city of Liverpool the local Labour administration have already stopped services to Moderate Users that means Service Users who are already finding it hard to cope and there is some risk to their health, and cannot carry out some basic tasks no longer receive direct care from the authority but from voluntary groups already swimming against the tide of these savage cuts.

Now due to £252 per head cuts put on this city, they are now considering removing the substantial banding, this means Service Users who are having significant difficulties in coping and are potentially

at significant risk such as abuse or neglect or an inability to carry out the majority of personal care or domestic routines will have their services removed.

This means thousands of elderly and vulnerable service users without care directly from the local authority are to be left fending for themselves, or to be ripped off by the profiteers who circle like vultures on the carcass of this nation and the weak to store their profits in offshore accounts.

317. JUSTICE FOR COLOMBIA

Congress, the killings of trade unionists have continued in Colombia, with at least 17 colleagues assassinated in 2012. Our colleagues also face imprisonment, death threats, false accusations and are often forced to flee their homes, simply for speaking out in defence of trade union and human rights. The majority of these crimes are carried out by state forces and paramilitary groups, and in 95% of cases, no-one is brought to justice. Congress condemns the fact that despite this situation the European Parliament recently voted to approve an EU Colombia Free Trade Agreement.

An armed conflict has raged for more than 50 years in Colombia, mired with intense political persecution and causing severe humanitarian conflict; over 5 million Colombians are currently displaced from their homes as a result of violence, the majority of them women and children. Despite the opening of peace talks between the Government and the FARC Guerrilla group in November 2012, the Government refuses to agree to a bilateral ceasefire, and hostilities, including indiscriminate bombings and open combat, continue in civilian areas. The attacks on civil society activists have increased in recent months, with members of Patriotic March, a civil society opposition movement for peace and social justice which many unions are involved in, among those most persecuted.

Those who speak out against this situation are targeted, such as Lilianny Obando, Colombian Trade Unionist and single mother, imprisoned for more than 42 months without being convicted of any crime. Lilianny was released in March 2012 following a JFC Campaign. However Activists continue to be detained on a massive scale, with over 7000 political prisoners currently held in Colombian jails. In December 2012, David Ravelo, Colombian Human Rights defender who worked closely with the USO oil workers union was convicted to 18 years in prison.

The Colombian Trade Union Movement and other civil society representatives, including Colombians for Peace, have made it clear that social inequality – the root cause of the conflict – must be addressed in order to put an end to the war, and that civil society must play a role in the process.

Congress congratulates Justice for Colombia's (JFC) successful work in supporting Colombian Trade Unions and civil society – work that the Colombian Trade Union Confederation (CUT) leadership has described as "crucial to the survival of many leaders". Conference therefore calls on GMB and all affiliates to:

1. To support the Justice for Colombia Peace Campaign
2. To continue to oppose the EU- Colombia FTA
3. To continue to provide financial and political support for Justice for Colombia
4. To write to all branches, encouraging them to affiliate to Justice for Colombia.

318. MALI

Congress rejects David Cameron's reasons given for the sending of troops into Mali, claiming "they will not be on frontline duties, but used to train the Mali Army".

In Vietnam the USA started as Advisors to the South Vietnam Army, and ended with a full all, out war which cost the lives of over 68,000 American troops and a further 500,000 Vietnamese people.

We went to war in Iraq on the basis of a lie, our Tony Blair took this country to war on the basis of a falsehood, we cannot allow that to happen again.

This country along with a number of countries have been fighting in Afghanistan for the past 10 years, not only have over 400 British troops lost their lives, but thousands of troops have been left scarred by

their experiences, and badly injured and thousands of Afghanistan people have been killed or injured by the war, to what end?

When will the British Government learn we cannot be the world's policemen, we need to learn our place in the world, and not think to bomb and the bullet solve the world's problems.

As trade unionists we know well that peace comes best around a table when we sit down and resolve our differences, our politicians have a lot to learn. We must stay out of Mali.

319. CONTROLS ON FOREIGN AID

This Congress calls on the GMB to put pressure on the UK Government to have a rigorous look at the way the Tax payers money is given away in foreign aid. Furthermore we have to be more selective in ensuring who aid is given to and how we distribute it to ensure it reaches its intended targets and not into the back pockets of other Governments corrupt Ministers.

We also have to remember that under this Government we will have growing numbers of homeless and over 3.6 million children in this country living in poverty. It may be that some of the £12.7 million given away overseas may be better spent looking after our own needy and vulnerable.

COMPOSITE MOTIONS

C1. Covering motions:

6. PROMOTING EQUAL REPRESENTATION OF WOMEN WITHIN GMB (*London Region*)
7. MORE WOMEN IN THE GMB (*London Region*)
8. LEGACY OF SEXISM WITHIN THE UNIONS (*Midland & East Coast Region*)

EQUAL REPRESENTATION OF WOMEN WITHIN GMB

This Congress notes that:

- Unions have always been associated with working class Northern Men. More female officers are required to help and to alter this perception. The image needs to be updated and the unions as a whole need to be more representative of those that they represent
- Membership of the union is roughly 50/50 between men and women.

This Congress recognises the under-representation of women's participation in the GMB Lay and full time structures and Requests the CEC looks at under representation of women at the level of Branch, Regional, National as well as Congress delegations and make recommendations on how we can rectify issues of under representation.

Congress believes that the elected Lay structure as well as the Full Time Regional and National Officers and staff should reflect the membership of the union in gender balance. This Congress agrees that we should be encouraging more women to become Officers and to take up Senior Officer posts to reflect the true make-up of our membership. We therefore ask Congress that GMB appoint more female full-time officers.

This Congress welcomes the commissioning of a report by the CEC into the involvement of women in the GMB and instructs the CEC to ensure that any report is circulated to regions and branches.

The CEC should consult the National Equality Forum and Regional Equality Forums on the outcomes of the report and bring final recommendation to Congress with any rule amendments that may be required.

90. STATE PENSION SYSTEM (*London Region*)
92. PENSIONS REFORM (*Birmingham & West Midlands Region*)
94. IDS PROPOSED FLAT RATE PENSIONS (*London Region*)

STATE PENSIONS REFORM

Congress notes that the Con-Dem Government has introduced a White Paper and Draft Bill to change the state pension system. Congress views with scepticism the flat rate pension of £144 a week proposed by Iain Duncan-Smith, and agrees it is a CONservative trick.

Although it is claimed it could lead to a higher pension for women, it would be at the cost of higher contributions over a longer period. It would also result in many current contributors getting lower pensions than their contributions merit.

The £144 is substantially less than current pensions for many who contribute to both the basic pension and SERPS. There may also be substantial increases in contributions for Public Sector workers.

Iain Duncan-Smith has not suddenly become Florence Nightingale, the real purpose of this proposal is to save the Government money.

Congress further notes that the Government's own information shows:

- That there are some winners – but a majority of people will lose out.
- It is discriminatory
- That the Treasury will gain £6bn per annum
- That an additional National Insurance Tax Rise will seriously hit defined benefit pension schemes and their 7 million members.
- That faster and further rises to the state pension age are likely.

This Congress agrees that state pensions should be at a level where means testing is not necessary. However Congress does not agree that any change should be at the expense of any future retirees having to fund the reform. We instruct the GMB nationally to lobby through our Pensions Department to stop this from happening

Congress agrees with the view of the National Pensioners Convention that this scheme is a trick and this motion calls on GMB to continue to campaign for an all round improvement to all state retirement pensions. Congress further agrees we should continue to argue for earnings related pensions.

GMB has been at the forefront of highlighting the truth about this Con-Dem con-trick and this Conference resolves to redouble our efforts to show that this Government is no friend to pensioners or future pensioners.

BLACKLISTING

This Congress notes:

1. The ongoing campaign as a result of the exposure of the blacklist and its use by major construction and engineering companies.
2. That at least 200 GMB members were on the blacklist and in the region of 500 GMB members may have been blacklisted over decades.
3. The important and continuing campaign against blacklisting and for redress being pursued by those who were blacklisted.
4. Some of the richest people in Society are engaged in, or are backing the blacklisting of workers with no justification and because Union Activists stand up and defend workers' rights

This Congress believes:

5. The GMB continues to have an important role in the broader campaign against blacklisting.

This Congress resolves:

6. That the GMB should ask its sponsored local Councillors to take steps to ensure that those companies who utilised the blacklist are excluded from local government contracts.
7. That the GMB should ask its sponsored MPs to take steps to ensure that those companies who utilised the blacklist are excluded from central government contracts.

Congress recognises the work done by the GMB in its investigations on blacklisting of our members. However, Congress notes the incompetence of the Information Commissioner's Office ICO, regarding their investigations and their lack of enforcement, which resembles a chocolate fireguard on organisations like Carillion.

Congress calls

- on a law to be placed before Parliament to outlaw blacklisting, and for public service contracts to be ended where employers living off the taxpayer operate such reprehensible employment practices
- for the Labour Party to signal that it will table legislation to make the practice of blacklisting illegal on its return to Government
- upon the next Labour Government to commit to holding a full investigation regarding the practice of blacklisting. The panel should have full judiciary powers and be able to call on all authorities, industries and individuals who hold records to be forced to attend with full disclosure. Finally, it should be able to recommend any actions which are deemed suitable against individuals and companies who took part in blacklisting over many years.

Congress asks the CEC to contact the Home Office asking them who the ICO are set up to protect, and why they fail to advise members of the public that they have been subject to blacklisting.

Congress believes that profits placed offshore should be used to pay a Living Wage and for the costs to the State as a result to be minimised.

Congress believes there is no evidence to suggest a Living Wage would increase unemployment and calls for the Living Wage to be implemented UK wide in 2013.

This Congress asks the CEC to instigate a policy of implementing "The Living Wage" where we are party to agreements with employers both for directly-employed staff and those of external contractors employed on their sites and calls on the Labour Party to back this policy.

REMPLOY AND SUPPORTED EMPLOYMENT FOR DISABLED PEOPLE

Congress condemns the actions of the Con-Dem government in closing Remploy factories. It is an absolute disgrace to see all these Remploy factories closed down, years and years of hard work just

gone down the drain. Remploy back in the 1970s employed over 12,000 employees just to see 40 years down the line NOTHING absolutely NOTHING.

Since the first announcement in March 2012 of Remploy factory closures and then the second announcement in December 2012, over 3,000 disabled people have lost their jobs for no fault of their own and over 70% of Remploy workers are still unemployed or have still not found alternative employment, the most vulnerable disabled workers are the ones most affected

According to DPAC – Disabled People Against Cuts – Disabled people who want to work are more likely to be unemployed than non-disabled people in all official statistics since records began. For example in 2011 the employment rate was 48.8% for disabled people compared to 78.5% for non-disabled people. Initial figures reveal that approximately only 35 disabled people out of 1,200 have managed to find work, making this closure of Remploy a complete and utter scandal.

Brothers and Sisters, a bigger scandal would be to leave the situation of employing disabled people as it is. A situation which leaves disabled people with very little hope of ever being financially and socially independent.

Disabled workers have the right to seek meaningful work on the same terms as the rest of society and it is a scandal that the current Government has sought to hide behind cuts to end decades of Remploy employment. The SAYCE report is not being followed as there is a total disregard of social enterprises and workers co-ops. Little or no help has been given to the disabled workers themselves to set up such enterprises.

After the disgraceful decision of factory closures by this coalition government; disabled people have been given neither the support and/or opportunities to retrain to get the mainstream jobs they were promised in the SAYCE report; this must be addressed by exploring alternatives such as funded co-operatives etc so that some of our most vulnerable members in society have the dignity and respect they deserve.

Now is the time for Congress to ask what the next Labour Government is going to do in providing work for disabled people and what financial support they are going to offer in bringing back specialist workplaces for disabled people. Not only will it provide an income but also bring in a training programme to help our children of today with learning difficulties to establish themselves when they are ready to go to work. This Congress calls on the Labour Party to signal a new start for disabled workers after decades of the death by a thousand cuts in the Remploy brand.

We urge congress to endorse a campaign/lobby of the Labour Party to include in its manifesto for the 2015 general election a commitment to consult with GMB and other unions, in the first term when elected, on supported employment for people with disabilities; and this Congress to pressurise Labour when re-elected to carry out an immediate review of the employment of disabled people which also includes proposals for a profitable and sustainable factory and skill based employment. Only with a new deal for disabled workers will we see an end to exploitation and Congress calls for the Labour Party to implement this in its Policy Programme for Government after the next General Election.

This Congress notes that, whilst GMB policy was to fight the closure of Remploy, the condemned work programme has also been a spectacular flop. Something which does not console those disabled people in Remploy who were (and still are) made redundant from Remploy. This Congress should be pushing the next Labour Government in re-opening Remploy factories and be putting in place supported employment for disabled people. This Congress therefore calls upon the GMB to continue its fight to defend the remaining Remploy workers and oppose any further attacks on vulnerable people within society

LOCAL GOVERNMENT FUNDING

This Congress is deeply concerned at the reports and concerns of the differing and partial funding by this Coalition Government that appears to favour the most well heeled Tory Boroughs at the expense of the poorer, most needy sectors of the community as set out in the letters from the three Cities. It is a scandal that a few mandarins in Whitehall have the historic knowledge of how funding formulae are made up. In the twenty first century this is nonsensical.

This Congress calls for a complete overhaul of local government funding to be needs based and calls for a Royal Commission on the Future of Local Government so that all areas of the UK get a fair deal.

Congress therefore agrees, we should together with the TUC and Labour Party, carry out a National Audit. Should the outcome support the concerns and reports it should be published in order to highlight the Coalition's prejudicial financial policies.

184. CAMPAIGN FOR NATIONAL ACTION TO DEFEND THE NHS (*London Region*)
185. SAVE NHS FROM PRIVATISATION (*London Region*)

SAVE THE NHS FROM PRIVATISATION

Congress, the very future of the NHS is at threat.

- Huge cuts in public services are threatening hospital and community services up and down the country with closure.
- Thousands of health workers jobs have been cut threatening front line services whilst the pay and conditions of NHS staff are under the most serious attack ever.
- Private companies now run significant parts of our NHS for profit, and the Health and Social Care Act will accelerate that process further with services in whole hospitals and areas being readied for privatisation.

There has been massive opposition to the attacks with huge local protests against closures, with health workers beginning to fight back, and with unprecedented numbers of people taking some form of action against Lansley's Health Bill.

Congress condemns the on-going privatisation and dismantling of the National Health Service, most recently the Health and Social Care Act. According to corporate advisers Catalyst, there is a £20billion "opportunity" for private health care firms in the NHS over the next few years thanks to this appalling Act. We note the public support of the Labour Party for the repeal of the Health and Social Care Act We urge the Party to make this a firm manifesto commitment, as well as pledging to reverse privatisation of existing health services by bringing them back into the NHS and to end the principle that "any qualified provider" should be allowed to bid to deliver health services.

Congress calls upon the CEC to work with other groups to campaign for a referendum on the Health and Social Care Act as part of an on-going campaign against NHS cuts and privatisation.

Trade Union Activists and anti-cuts campaigners want to join a fight back but need far clearer calls for action now not just after the next election. A serious national campaign of action is urgently needed backed by the Trade Unions and the Labour Party.

We call on our union to:

- Give maximum support for campaigns and industrial action against cuts and privatisation
- Campaign for nationally co-ordinated action
- Give national campaigns such as Keep Our NHS Public the support and resources they need to continue their work
- Call a national demonstration in defence of the NHS to highlight the threat to the health service and to help co-ordinate and build the campaigns and the action to defend it.

NATIONAL HEALTH SERVICE AND PFI

In 2008 our government bailed out the banking institution and yet our NHS has been left to flounder to the point that it is almost destroyed. If we can save the Fat Cat Bankers, then we should help save the very institution that was set up to help our most needy and vulnerable.

Private Finance Initiative has now run its course, everyone can now see the disaster it has created leading to cuts taking place in non PFI hospitals to finance the PFI debts. PFI hospitals costing £60 million at least per year for each PFI hospital, costing more than 7 times the original cost to build.

We must campaign against this daylight robbery and this gravy train. PFI debt should be written off for public benefit to save the NHS service. This Congress will actively campaign for the Labour party to agree when next in government, our aspirations to bail out our debt ridden NHS PFI hospitals and renegotiate the poor contracts with escalating debts to PFI providers.

198. HAS THE CARE GONE OUT OF CARE FOR THE CARERS (*Yorkshire & North Derbyshire Region*)
199. CARE HOMES THE PRIDE OF OUR NATION (*GMB Scotland*)

CARE HOMES

Due to the present government's approach to care, whereby those people who are mobile and do not need specialist care are encouraged to stay in their own homes with support from community care workers. The trend in residential / nursing care homes is changing, in that, the people coming in to care are people with more complex needs such as behavioural problems, alzheimers, dementia, alcohol and drug abuse as well as mental health problems. This is resulting in people being accepted into care homes which cannot provide them with the correct care they require.

Why are our senior citizens paying for the current status of the Government. Our old folk are the backbone of our nation and what is happening to them.

Too many stories have come to light about the care homes, treatment, food and care of our retired, ill health and old members of our communities. Let us stop hearing the horror stories about the care industry, Substandard care, Substandard food and put the right legislation in place to stop them.

This Congress we respectfully call upon to bring pressure to the government to look at new legislation concerning the private sector of the care Industry, one of the fastest growing industries in our country. There is no legislation setting out a ratio between the number of staff and service users.

The CQC standards say that as long as the service users are not at risk of harm due to incorrect staffing levels, then they have nothing in place that addresses the level of staff in a care home; it is left to the manager's discretion. This however leaves the recommendations of the CQC open to abuse by penny-pinching managers and owners, who do not want to pay for staff.

We are aware of a care home where there are 29 service users on one floor all of which need personal care consisting of showers, baths, incontinence pads changing, catheter bags emptying, meals serving, beds changing and there are only two care assistants allocated to meet their needs and a senior member of staff to administer medication, do daily reports and help with meals if possible.

Can anyone put their hand on their heart and say that it is acceptable that two people should be expected to take responsibility for 29 people, work in this environment and be paid minimum wage?

People seem to live with the misconceptions that care assistants make cups of tea, serve up meals, make beds and sit chatting to service users. Long gone are those days unless you work in a residential home where the Service Users are quite independent and need a small amount of time for personal care and the home is well staffed.

Many homes give in-house training, this consists of watching a DVD followed by a question and answer session and then receiving a certificate that goes into their personal file to show any inspecting body that a person has been trained in that subject. (This is a joke).

The government has responded to the recent outcry over care provided in hospitals and care homes to sufferers of dementia by proposing to give more money to the hospitals and private care sector. I believe that there are some owners who will not use this money where it is needed but will use it to their own advantage.

What the government should be doing is closing loopholes in the legislation which allow bad management in the care of the elderly and vulnerable adults. Lets look into this further and solve the problems. Look at putting a system of assessments in place to stop poorly staffed homes taking in service users with special needs. Put the money into building facilities that meet the requirements of these people with the right number of staff with the correct training and with legislation in place to protect both service users and care assistants alike from being exploited by greedy owners.

This Congress I am asking to look into the care homes of our elderly and make sure that they are treated with the respect that they have worked for and deserve. Let the GMB take up the challenge and start a National campaign to put legislation in place where by the ratio of care assistants to Service Users is more realistic and also ensure that before a person goes to work in a care home of any kind they have a minimum of a NVQ Level 2 Certificate or similar in Health Care.

204. LIVING WAGE (*London Region*)

LIVING WAGE

Whilst we accept that the minimum earning legislation was a massive and important move forward by the Labour Government, it has to a large extent been overtaken by recent wage freezes, massive increase to all basic living cost and the attack on benefits.

This Congress supports the movement towards the introduction of a living wage which has already been adopted in many local authorities by other employers and the principle being accepted by others.

This Congress calls upon GMB to better publicise and celebrate those local authorities who sign up to implement the living wage, but also increase pressure through campaigning to get all local authorities to do it. As a result of which, Congress now agrees we should adopt the living wage as the standard for the future.

GENERAL STRIKE

We demand the right to withdraw our labour as our fellow trade unionist can in the EU. To accept the attacks on our living standard without increasing our resistance will only lead to the Government continuing unabated in removing the gains the Trade Union Movement has made through the years.

This Congress 2013 agrees to support the growing call for a one day general strike in response of the destruction of jobs and services and the wholesale attacks on working class living standards we are enduring from this Tory/Liberal Coalition Government. We do understand the difficulty that this would mean because of the anti-trade union law that was brought into place by the Thatcher Government and continued under Labour.

This Conference calls upon the Central Executive Council to work with all trade unions to organise a general strike. We say enough is enough and believe we should now be applying maximum pressure within the TUC to name the day

LABOUR PARTY SELECTIONS

Far too often, the NEC shortlisting committee dictates the choices available to local party members by parachuting candidates into constituencies without any explanation for their decision.

This Congress calls on the GMB to continue the campaign for more working class candidates to be nominated for political and Parliamentary office within the Labour Party. It notes with concern the selection process for the Rotherham by-election and calls on the GMB to demand an inquiry in to this selection and the role of the Labour Party NEC in the selection process in general.

This Congress calls on the Labour Party to reform its selection procedure for Parliamentary Candidates as a matter of urgency. Labour Party rules should allow a more open access to selection panels and a greater say for local CLP's in short listing and selecting local candidates.

In order to give CLP members a genuine, democratic choice, Congress calls on the Labour Party to:

1. Have shortlists of at least six at CLP selection meetings
2. Those shortlisted to hold a cross section of views to represent the various strands of opinion within the Party
3. At least one shortlisted candidate to be selected by the region.

The Labour Party has a history of comradely and fraternal debate, in other words, democracy. It needs to restore local democracy to the selection procedure.

BETTING SHOPS, HIGH STAKE GAMING MACHINES AND FIXED ODDS TERMINALS

Congress agrees that gambling can become a serious addiction and is increasingly the cause of serious financial problems in families. This motion notes with concern the rapid proliferation of high stake gaming machines and fixed odds terminals in betting shops. These additions to conventional gambling are rightly referred to/are known as "the crack cocaine of the Gambling Industry" and are mushrooming in every High Street, and poorer communities.

Congress notes the campaign by Fairer Gambling who have released figures which state that more than £2billion was gambled using "fixed odds betting terminals". The growth of these machines and establishments coupled with the industry call for further deregulation should set alarm bells ringing. There must be a cap on the number of these machines in individual betting shops.

The Government should carry out a review of FOBT's that considers reducing the maximum stake from £100, increasing the time between plays and the way the machines are licensed. We also believe

that the best way to prevent the further clustering of betting shops is to change their planning category, giving residents and local government more say over their local high street.

This motion is not calling for a return to the days of back street bookies but calls for control of the concentration and form of gambling on our High Streets to be controlled by Local Authorities.

ORGREAVE AND POLICING THE MINER'S STRIKE

This Congress notes the work of the Hillsborough Commission and the Leveson Inquiry. During each of these events, it has become clear that the Police have fallen short of the standards the public expects from their guardians. The recent Hillsborough Inquiry shows the pattern of police corruption in South Yorkshire police, and in fact Orgreave is part of the pattern of cover ups and lies by the police from many different forces, which are now being exposed. In particular, allegations are now being made, with some regularity, about the events that took place during the Miners' Strike of 1984-1985. Congress congratulates the Orgreave Truth and Justice Campaign – seeking truth and justice for all miners victimised by the police at the Orgreave Coking Plant, South Yorkshire, on June 18th 1984.
Congress

- instructs the CEC to support the Orgreave Truth and Justice Campaign which calls for a public inquiry, to take place as soon as possible, into the events during that dispute, the policing and subsequent statements recorded by the police at the time and calls for the Labour Party to commit to one in the event that it is returned to power in 2015.
- asks the CEC to note developments and report back to Congress on developments on this subject matter.

278. EDUCATION BIAS (*London Region*)

EDUCATION BIAS: ESCAPING THE POVERTY TRAP

This Congress notes that the gulf between the poor and rich of the world is widening and is deeply concerned at the malevolent attitude of the Education Secretary, Michael Gove, towards the teaching profession, most especially those in the state sector. Our concerns are heightened as we see in this, his animosity towards the vast majority of working class children, and an extension of his financial prejudice against general state education.

Within the UK, the financial gap between the wealthy and the poor is not narrowing and differences in health between social classes are becoming greater. Poverty and social inequality have direct and indirect effects on the social, mental and physical well-being of an individual. It is important to note that poverty and inequality are closely linked. It is believed that income inequality produces psychosocial

stress which leads to deteriorating health and higher mortality over time. Those who live in deprived communities, where there is under-investment in the social and physical infrastructure, experience poor health, resulting in higher mortality for those of lower socio-economic class. The effects of income inequality also spill over into society, causing stress, frustration and family disruption, which then increase the rates of crime, homicide and violence.

We therefore call upon Congress to support extra funding for schools in deprived areas and also the need for community funding for parenting classes/education for parents around health and nutrition and literacy.

SOCIAL HOUSING PROGRAMME AND 'THE GREEN DEAL'

This Congress recognises the value of Social Housing to the community.

It condemns the Tory led government policy on 'right to buy' which will seriously reduce the social housing availability and add to the 1.7 million people in England alone on the ever-growing council house waiting list.

This Congress agrees there is a need for a major house-building programme in many parts of the UK. It recognises that the social housing shortage can only be addressed by a massive programme of house building and that this must be built by directly employed workers and to the highest environmental and sustainable standards of this National Code for Sustainable Homes.

Congress, also, recognises that the Government's new homes bonus scheme has failed and agrees that the GMB, along with other trades unions, should make representation to the Government to introduce a fairer system that will encourage house-building in areas of genuine need. It's no good leaving the market to decide, that's what's got us into this mess!

Therefore, Congress urges the TUC to mount a campaign to achieve this programme and call on the GMB at all levels to campaign with 'Defend Council Housing' against the continued sell off and to lobby government and local authorities to build new housing to the National Code.

RAIL RE-NATIONALISATION

This Congress believes that the rail infrastructure in the UK is in a shocking and under-invested state, with Government indecision and inaction allowing spivs, speculators and incompetent executives to sponge money out of the taxpayer from a cartel captive market.

This Congress calls on

- any future Rail contract that is ended before schedule, is then transferred back to Government ownership so that taxpayer money is safeguarded both by money invested in the industry and potential profit taking which sucks investment out of the industry and ensures passengers and taxpayers get a poor deal.
- the re-nationalisation of the industry and for it to be done expeditiously and for the Labour Party to commit to such a policy change as part of its programme for the next Labour Government.

WELFARE REFORM

This Congress deplores the Tories and Lib Dems in Coalition attacking the most vulnerable in Society with their benefits cuts. These cuts demonstrate that George Osborne's claims that "we are all in this together" are bogus and a bare-faced cheek.

This Congress is deeply concerned at the demeaning rhetoric used by Senior Coalition Politicians to vilify recipients of a wide range of benefits, many of whom are in low paid employment, pensioners, genuinely unemployed, or suffering ill health. Contrast this with the deafening silence from the same politicians about those employing every device and opportunity to avoid contributing to the National Purse by means of normal taxation. We are in no doubt that this rhetoric is a blind to cover their unnecessary economic attack on working people, designed to set worker against worker, against the unemployed and pensioners generally. Congress agrees we must challenge and highlight this situation.

This Congress calls upon the Labour Party to

- continue to denounce the implementation of all aspects of the Welfare Reform Act and make a commitment to amend this piece of legislation that in the main affects the most vulnerable in our society. It also wipes out the safety net in place to protect those, who in the main through no fault of their own, have to rely on state benefits to give them a basic standard of living. This abysmal piece of legislation will take our society back decades and must be amended by the next Labour Government.

THE BENEFIT CAP

This Congress is appalled at the decision imposed by this current Con/Dem Government to cap certain benefits at 1% increases for the next 3 years which not only affects the most vulnerable in society but also hard working families.

Congress congratulates the Labour Party in opposing the Coalition Government's cynical and miserly 1% cap on benefits and the dishonest manner in which it was presented.

Congress also compares the 1% benefit cap to the tax relief for those earning £100,000 plus and the way in which the banks have been exonerated from the economic woes they created.

Nor should we forget that none of these policies could be enacted without the active Parliamentary support of the Lib Dems

This Congress instructs the CEC to:

- mount a campaign to link benefits back to the cost of living rises on a yearly basis, to protect working people who receive tax credits and child benefit.
- lobby MP's for change to the current decision made in order to return rises based on the Retail Price Index (RPI).

- 303. THE BEDROOM TAX (*Yorkshire & North Derbyshire Region*)
- 306. BEDROOM TAX (*Northern Region*)

BEDROOM TAX

This Congress Deplores the Coalition Government's bedroom tax and its imposing right wing Tory Victorian values on twenty first century Britain.

This Congress notes:

1. The Government has enacted legislation called the Welfare Reform Act ("the Act") due to come into force in April 2013.
2. The Act reduces housing benefit by between 14% and 25% for those in social housing (council housing or housing association housing) if they are deemed to be 'under occupying'.
3. 'Under occupying' includes:
 - 3.1 Having one more room for each single person or couple (even if the 'extra' room is a box room or for storing disability equipment).
 - 3.2 Having more than one room for two children under 10 of a different gender.
 - 3.3 Having more than one room for two children under 16 of the same gender.
 - 3.4 Having a room for a foster child.

4. Across the country there are already 1 million people on council waiting lists for one bedroom properties. In Leeds 20,000 council homes have been lost in the last 15 years.
5. The Welfare Minister, Lord Freud, owns a London Home worth an estimated £1.9million but pays only an estimated three times as much council tax as a person living in a bedsit.
6. The Government refused to implement a tax on very high value residential property or re-assess council tax on these mansions.
7. Official estimates are that 95,000 families will be forced into poverty due to the bedroom tax.
8. The Hooper family (reported in The Mirror 27 January 2013) have five children and live in a four-bedroom Council house in Hull. Their disabled daughter has her own room – built as an extension, as her wheelchair doesn't fit in the box room. The Hooper family will lose £20 per week due to the bedroom tax as not all children are sharing a room.

This Congress believes:

9. That under occupancy of Council housing is not the problem, the lack of Council housing being built is the real problem that needs addressing.
10. Even where a resident would prefer to down-size, there are no properties to move into.
11. That solution to a lack of social housing is not to punish those who live in social housing but to build more council homes.

This Congress resolves:

12. To support any GMB members affected by this policy who raise it with the union.
13. To publicise the unfair impact of this law and support campaigns for it to be abolished.
14. To support any network of those tenants effected.
15. To ask local Councils to take any practical measures to mitigate or avoid the impact of this legislation i.e. by not enforcing arrears and not evicting tenants where the eviction is caused by this benefit change.
16. To ask that GMB sponsored Councillors act in a manner consistent with this motion.

Congress calls for this “telling people how to run their lives” tax to be scrapped and for the Labour Party to signal that it will indeed scrap this ridiculous and pernicious tax, should it be returned to power in 2015.

CEC RULE AMENDMENTS

CECRA1

Rule 29 – Audits

At end of clause 2 insert:

“No region will have more than one auditor. The auditors elected will be the first three candidates from different Regions according to the number of votes cast.”

Clause to read:

2 Our accounts will be examined by three of our members, who will be elected every four years in line with the appropriate rules for nominating and electing officials. No region will have more than one auditor. The auditors elected will be the first three candidates from different Regions according to the number of votes cast.

CECRA2

Rule 35 – Branches

Clause 15, line 16, after “rule 5.8.” insert:

“The Regional Committee or Central Executive Council may order an appeal to be struck out for scandalous, vexatious or unreasonable behaviour by an appellant or for excessive delay in proceeding with the case. Before making such an order the appellant will be sent notice giving them an opportunity to show why the order should not be made.”

Clause to read:

15 The regional committee will have the power to suspend or remove from office any branch officer who:

- acts incompetently or dishonestly; or
- fails to carry out any instructions or decisions of the Central Executive Council, regional council or regional committee; or
- for any other reason it considers reasonable

In giving its decision, the regional committee must tell the member, in writing, of their right to appeal.

Branch officers who are suspended or removed from office can appeal in writing within one month to the general secretary. If successful, the general secretary will refer the case to the Central Executive Council, who will make the final decision. Before the regional committee and the Central Executive Council, the branch officer will have the rights set out in rule 5.8. The Regional Committee or Central Executive Council may order an appeal to be struck out for scandalous, vexatious or unreasonable behaviour by an appellant or for excessive delay in proceeding with the case. Before making such an order the appellant will be sent notice giving them an opportunity to show why the order should not be made. A member who, for any reason, has been disqualified from holding a particular office will not be eligible to be nominated for and elected to any other office without the regional committee’s approval.

CEC STANCES on EXISTING POLICY MOTIONS

The following outlines the stance adopted by the Central Executive Council towards each motion deemed as Existing Policy at its meetings in March and April.

101. GOVERNMENT ATTACKS ON EMPLOYMENT RIGHTS

The Motion opposes the Government’s attacks on employment rights. This is in line with the policy adopted by Congress 2011 Motion 101 Terms and Conditions and Congress 2012 Composite 2 Rights at Work.

120. REMOVE THE AGE RATES FOR THE NATIONAL MINIMUM WAGE

The removal of age rates has been longstanding GMB policy since 2001, Workers should receive the same rate where they are doing the same job, regardless of age. Also, in the absence of the Government not abolishing age rates, it has been our policy since 2003 to call for the adult rate to be paid at 18 instead of 21 and we have included this in our submissions to the Low Pay Commission

121. MINIMUM WAGE

The removal of age rates has been longstanding GMB policy since 2001, Workers should receive the same rate where they are doing the same job, regardless of age.

131. AGENCY WORKERS' EQUAL RIGHT

The motion calls on the GMB to campaign for equal rights for low paid agency workers to have the same terms and conditions as permanent employees. It also refers to concerns relating to the Swedish Derogation regulation and the threat this poses to undercutting wages and other terms and conditions, highlighting recruitment potential around this issue. This is in line with existing policy on this issue carried in C6 (M77, M78 & M79) at GMB Congress 2012.

158. STRATEGY FOR COAL

This motion is asking for coal to be included when considering an energy policy. A balanced energy policy which includes coal, nuclear and renewables is existing GMB Policy as passed by Comp 19 "Balanced Energy Policy" Congress 2006, Comp 10 "Balanced Energy Policy" Congress 2007 and in particular Motion 76 "Energy Policy" from Congress 2009 which is almost identical to this motion.

165. PAY FREEZE IN PUBLIC SECTOR

This motion is factually inaccurate (about the £21,000 limit) and is existing policy with nothing new.

171. AN END TO OUTSOURCING

This motion is existing policy with nothing new.

178. ACADEMIES

This motion is restating existing anti-academies policy.

205. CLOSURE AND PRIVATISATION OF MOD BASES

This motion is existing anti-privatisation policy with nothing new.

209. GOVERNMENT TO CRACK DOWN ON TAX FRAUD

Motion calls on Government to crack down on tax fraud and evasion.

This is in line with existing policy as per Congress 2011 CEC Special Report "A Fresh Way Forward" covering C12 Tax Avoidance And Tax Evasion (motions 155,156,157,158,161); Congress 2011 motion 154 Tax Avoidance.

213. REDUCTION OF VAT

Motion asks Conference to push for a reduction which is in line with existing policy as per Congress 2012 motion C10 VAT (Covering motions 112,113).

214. FINANCE - VAT

Motion instructs the CEC to lobby for a reduction which is in line with existing policy as per Congress 2012 motion C10 VAT (Covering motions 112,113).

257. LOAN SHARKS

This motion is existing policy as carried by Composite 8 Congress 2010 Loan Sharks and Interest Rates and Composite 16 Congress 2011 Loan Sharking and Interest Rates which called for an end to loan sharking.

269. LEGAL AID CUTS

The Motion calls for a campaign in defence of state Legal aid. This is in line with GMB policy adopted at Congress 2010 Motion 142 Justice for Working People, Congress 2011 Motion 212 Legal Aid Reforms, and Congress 2012 Motion 175 Legal Aid Reforms.

EMERGENCY MOTIONS

EM1. POTENTIAL NUCLEAR HOLOCAUST IN KOREA

This Congress notes the escalation of tensions on the Korean peninsula, exacerbated by the sabre rattling by both North Korea and the United States. Any new war in Korea will bring death and suffering to millions. Given the trading links between Britain and South Korea, given that more than 1,000 British servicemen gave their lives to bring peace to Korea from 1950-1953, the British Foreign Secretary has been strangely silent on the situation.

Congress calls on the government, as a matter of urgency to work with the United Nations to prevent this brinkmanship leading to armed conflict.

WINLTON BRANCH NEED YOU!

It's got a great track history, so why not support this vital branch

GMB Winlton branch has been very busy since it was set up 15 years ago. It was originally a holding branch for all new members who did not have their own branch at the time of joining GMB. It has always worked hard to make a difference to GMB and to the Gateshead communities and has had members on a number of committees, including the Community Health Council, Gateshead PCT, Sure Start and Gateshead Trades Union Council. The branch has also sponsored schools with sport trophies tournament and the end prize-giving. GMB Branch Secretary Hewson, has been working for a long time. CONDOLENCES

We send our condolences to Jimmy and his family in remembrance of his daughter, Louise Mary Hewson, who died 7 January 2012. She was a regular visitor to the Newcastle and Sunderland Offices and was loved by officers and staff.

What the Dickens?

The Tory attitude to welfare is Dickensian as Iain Duncan Smith brands anyone on benefits a "slacker"

The Tories think there are two types of people in the world: "shivers" and "slackers". Iain Duncan Smith, the millionaire Secretary of State for Work and Pensions, told the Sunday Times that people who receive benefits are not unfortunate, they are "slackers". The Tories' attitude to welfare reform is far from progressive, as they are the subject to spread the "slackers" myth about those on benefits - and the dangerous idea of helping them make brutal cuts that will cripple ordinary families.

Public opinion

Most worrying of their lies are striking in. In a recent YouGov survey published by the TUC, on average people think that around 41 per cent of the social security budget goes to the unemployed, and around 27 per cent is spent

GMB's view is that the vast majority of people affected by these cuts find themselves in need of support due to circumstances beyond their control. It is simply unfair and immoral to suggest that these people are "slackers" or "shivers" who, through choice, are willing to spend their entire lives on handouts. People should not be fooled by the lies and myths perpetuated by Duncan Smith and other millionaire millionaires such as the Chancellor, George Osborne. They will continue to use divisive tactics to turn workers against the unemployed or those on other

GMB Retired Members Association—The Golden Years Stand 15

Since 1985 GMB's Retired Members Association (RMA) has continued to grow. Retired members and their partners are urged to maintain an active interest in the activities of the RMA and all but one GMB branch are affiliated to the RMA.

The four key objectives of the RMA Constitution are as follows:

- The GMB RMA aims to provide practical assistance in the recruitment, retention and organisational objectives of GMB wherever and whenever possible.
- The GMB RMA aims to campaign on behalf of retired GMB members, and thus bring about dignity in retirement.
- The GMB RMA will work in partnership with like-minded pensioner groups whenever it is appropriate to do so.
- The GMB RMA aims at all times to comply with the Equal Opportunity policies of GMB.

These aims and objectives are about furthering the interests and aspirations of retired members and their partners, building and maintaining the goals of our thousands of retired members, and developing a seamless link with the working membership of GMB.

Britain has a growing and influential pensioner movement, which is campaigning to have the freedom to live in dignity and not the fear of need. The GMB RMA is part of the larger pensioner movement and politically campaigns at all levels of Government, Europe and in the UK.

You joined GMB to protect and advance your interest at work. The same criteria apply in retirement. If you are interested, or about to retire, and would like to stay active and involved in GMB, please contact your Regional Secretary or the appropriate RMA Co-ordinator.

GMB Union Learning Fund Projects Stand 11

This year's Congress sees the 3 Regions that have secured Union Learning Funded (ULF) monies working together to demonstrate the valuable work that they do in promoting the Lifelong Learning Agenda. GMB's North West & Irish Region, Southern Region and Yorkshire and North Derbyshire Region have between 1st April 2012 and 31st December 2012 arranged courses ranging from Functional Skills- Literacy/Numeracy, ICT, Apprenticeships and Higher Education for 1,292 GMB members. In addition those 3 project teams have, over the same period of time, assisted in the recruitment of 1,113 new members. Add to those impressive figures 110 new Union Learning Reps recruited and a clear picture emerges of the immense benefits gained from investing in ULF projects.

Please come and visit us during the week to discover how we can help you with your personal development plans.

Project team members look forward to seeing and helping you.

Justice for Colombia (JFC) Stand 24

Justice for Colombia (JFC) is the British trade union NGO that campaigns for human rights, workers' rights and the search for peace with social justice in Colombia.

JFC was established in 2002, in response to the appalling human rights crisis in Colombia. While international pressure, including from JFC, has led to some improvements in the situation, Colombia remains the most dangerous country in the world to be a trade unionist, with at least 20 of our colleagues assassinated in 2012 and three killed in the first two months of this year. Many more are falsely imprisoned, threatened and forced to flee their homes.

JFC continues to work tirelessly to support our colleagues in Colombia, with targeted campaigns in opposition to the EU-Colombia Free trade agreement, for the freedom of Colombia's political prisoners and for a lasting peace process. Come and see how you can lend your support.

We act for workers across a wide range of industries and aim to offer them all the highest standards of fairness and integrity at all times. We have a strong reputation in Personal Injury, Clinical Negligence and Employment Law. As a GMB member you are entitled to free legal advice and if you succeed in a claim you keep 100% of your compensation. O.H Parsons wish all delegates a successful and campaigning Congress.

Insurance solutions for your needs

Towergate is Europe's largest independently owned insurance intermediary, and we have been handling the GMB's insurance needs for fifteen years.

During that time we have learned about the type of products and services GMB members are looking for. We know GMB members are not all the same and we don't believe in the one size fits all approach. Instead we will work with you to come up with the product that precisely suits your needs – and we have over 200 insurance products to offer.

Policies available include:

- Personal insurance
- Buildings and motor cover
- Home and contents
- Travel insurance
- Plus much more.

Towergate currently works with some of the biggest unions in the country to provide their members with products precisely focussed on their needs.

Palestine Solidarity Campaign (PSC) Stand 26

The Palestine Solidarity Campaign calls for justice for all Palestinians—an end to Israel’s illegal occupation, self-determination and dismantling the apartheid Wall. Our most recent focus is on the treatment of Palestinian prisoners, in particular of child prisoners. Eighteen major unions, representing 80% of trade unionists in Britain, are already affiliated to PSC. Recent trade union conferences have supported the campaign for boycott, divestment and sanctions called for by Palestinian civil society which includes trade unions. Delegates and visitors are invited to come to our stand throughout GMB Congress to learn more about our activities.

Pellacraft Limited Stand 13

Pellacraft has been established for over 20 years and over this time, has become one of the leading suppliers in the quality Business Gifts and Corporate Promotional Merchandise sector. Our aim is to provide your organisation with the material to help promote GMB throughout industries all over the UK.

We offer a wide variety of products and have put together a brochure showcasing our most popular ranges. These items can be used during recruitment drives, updating current members or simply to help raise awareness of GMB. The effective use of promotional merchandise will leave members with a positive image of you and GMB and as a promotional and advertising vehicle this route can prove to be very cost effective.

For more help and ideas, please call Sam on 01623 636602 to discuss your requirements. Pellacraft will be happy to produce ideas, quotations and any samples required in order to enable you to plan your promotion efficiently. Pellacraft Ltd, Hermitage House, Hermitage Way, Mansfield, Notts NG18 5ES

Simpson Millar LLP, Solicitors Stand 18

In 1919 members of the Post Office Workers Union were in dispute. Having nowhere to turn they walked into the offices of local solicitors, Simpson Millar, who took up their case and have been standing up for the rights of trade unionists and individuals ever since.

Today, lawyers clamour to attract your business. With nearly a century of representing trade unionists, Simpson Millar are no longer just another high street firm. We deliver an exceptional service nationally whether our clients are a million strong trade union or one person needing someone to fight their corner.

The Exhibitors

We offer:

- Plain, simple and understandable legal advice
- A fighting spirit when our clients need a champion
- A commitment to justice and equality shared with our trade union partners
- A passion to impress every client

Please visit us at stand 18 and let us find out what we can offer you.

Simpsons Solicitors With GMB North West & Irish Region Stand 2

Simpsons Solicitors are proud to be associated with GMB. We act for the North West & Irish Region.

We are a practice employing lawyers who have many years experience in dealing with claims for trade union members and their families.

The principle of our practice is that we are supportive of the trade union movement and our staff are all members of GMB. We can assure members that we have the interest of not only their individual claim at heart, but the interest of GMB.

We are heavily involved in assisting the Region's education officers in training new shop stewards in health and safety matters.

We have lawyers who attend the various shop steward courses to give training sessions on a whole range of legal issues that affect both them and their members.

We have lawyers who address various trade union conferences and have a particular presence at the annual GMB North West & Irish Regional Womens Conference where our lawyers have spoken on various issues that affect women in the workplace.

Some of you may well have heard of the 'Jackson Reforms'. These reforms affect us all and make GMB membership even more important if you or a member of your family wish to pursue a personal injury claim.

It is therefore vital that members and their families continue to use GMB Legal Services to make sure that you are getting maximum compensation for your claim without any expense to you, funded by GMB providing you qualify under the union's rules.

If you want to discuss any of these points, then please do not hesitate to come to our stall to do so.

We have offices in Cheadle Hulme 0161 485 6030 and Liverpool 0151 236 4312 or email us at: law@simpsonssolicitors.co.uk

The People's Operator Stand 5

The People's Operator is a brand new kind of mobile network. We don't spend money on huge offices, giant billboards or flashy stores. We pass the massive savings to our customers and raise funds for local causes.

Thompsons Solicitors Stand 12

Thompsons is the UK's leading trade union and personal injury solicitors. We have stood shoulder to shoulder with the trade union movement to defend the rights of working people and to promote social justice since 1921.

We know whose side we are on and have refused to act for insurance companies or employers throughout our history, representing those who need us the most, not those who can pay us the most.

Thompsons are proud to provide legal services across GMB Regions including:

- Personal injury
- Road traffic injury
- Industrial disease or injury
- Employment law (accessed through GMB)

TU Fund Managers

TU Fund Managers Ltd Stand 6

TU Fund Managers is one of the oldest Unit Trust investment companies in the UK having celebrated its 50th anniversary in 2011. Founded by the trade union movement back in 1961, unlike most other investment houses, TU is wholly owned by a charity, the TUUT Charitable Trust, which has over the years supported a diverse range of worthy charitable causes.

You too could invest with TU, from as little as £50 a month. ISA investments are well worth considering to complement pension funds.

For full details, visit the TU stand during GMB Congress.

The Exhibitors

War on Want Stand 27

Poverty is not an accident—poverty is political. The decisions of politicians in rich countries can mean life or death for people in developing countries. War on Want is an organisation that tackles the root causes of global poverty, and challenges those institutions of the world's economic system that perpetuate that poverty.

War on Want is demanding changes to the UK's tax laws and that UK's tax havens are abolished to stop the corporate tax dodgers sucking profits out of countries around the world. We are also campaigning to end the exploitation of workers in the supply chains for high street shops and supermarkets.

War on Want has a long history of working in partnership with both UK and international trade unions as well as with grassroots organisations in developing countries. We work with some of the most inspirational groups in Asia, Africa and Latin America. In rural communities, factories, sweatshops, in conflict zones or on the margins of society we believe the best way to tackle poverty is to support those organisations that are best placed to find their own solutions for social change.

Woodcraft Folk Stand 22

Woodcraft Folk is the co-operative children and young people's movement. We run hundreds of grassroots education groups in towns and cities across the UK, where young people of all ages meet to play games, make friends and learn about big ideas from climate change to social justice through co-operative activities.

Woodcraft Folk encourages children and young people to participate in society, improving their lives and others through active citizenship with the aim of building an environmentally sustainable world built on children's and human rights, equality, friendship, peace, economic & social justice and co-operation.

We are proud to have the support of the Co-operative and trade union movements, including GMB, as we work to encourage the next generation of Co-operators and trades unionists through our weekly group night activities, our camps and international exchanges and our educational resources including the 'Right to Strike' pack.
