

GMB Union exists to support our members at work and to campaign for the best possible pay, terms and conditions. It's what we do.

Whether you need advice about a situation that is effecting you, you want a louder voice for you and your colleagues when it comes to pay, your terms and conditions or you just want to make sure someone is on your side when you need it – we're here.

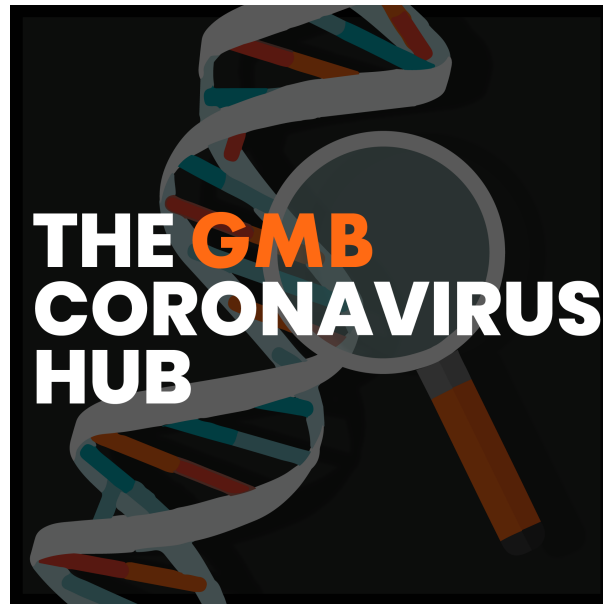

Members often get in touch with general questions about what your rights are. We've put together some of the most frequently raised subjects - you can click on them above, but please keep in mind this is not legal advice and it's not specific to your situation.

If you need help or advice, you should contact your rep or GMB region.

Coronavirus advice

We are receiving an extremely high number of calls. If you have an issue relating to coronavirus (COVID-19) please try and use our online resources first.

Advice is constantly changing, but these resources will be updated regularly - so keep the pages bookmarked.
